Missed a call?
WhatsApp in 60s
(n8n + Claude)

The Problem

6:40 PM. Hands in a patient's mouth.

The phone rings at the reception desk. Nobody picks up. By the time someone checks, the caller has already dialled the next clinic on Google Maps.

1. Missed call · 6:40 PM
2. Missed call · 6:52 PM
3. Missed call · 7:05 PM
4. Called back next morning
5. "Already booked elsewhere"

3 missed calls, 1 lost patient

The Workflow

Missed Call to WhatsApp Follow-up

Every box below is a node in the free workflow.

Step 1

Catch the missed call

Exotel or Twilio calls n8n after every call. n8n answers at once, cleans the number to 91 plus 10 digits, keeps only unanswered calls and ignores duplicate pings.

Output · JSON

```
{
  "CallFrom": "09876543XXX",
  "DialCallStatus": "no-answer",
  "phone": "919876543XXX",
  "calledAt": "23 Oct, 06:40 PM"
}
```

N8N NODES

Missed call webhook

Reply 200 to Exotel

Clean up call

Only missed calls

Skip duplicate pings

Step 2

Check who is calling

n8n looks the number up in your Callers sheet: known customer? How many missed calls this week? Already sent a WhatsApp in the last 2 hours? After closing time?

Google Sheets

Callers

	Phone	Name	Customer	Missed 7d
1	**98765 43XXX**	**Priya**	**yes**	**3**
2	99887 76XXX		no	1
3	90040 12XXX	Rahul	no	1

3 calls this week = call her

N8N NODES

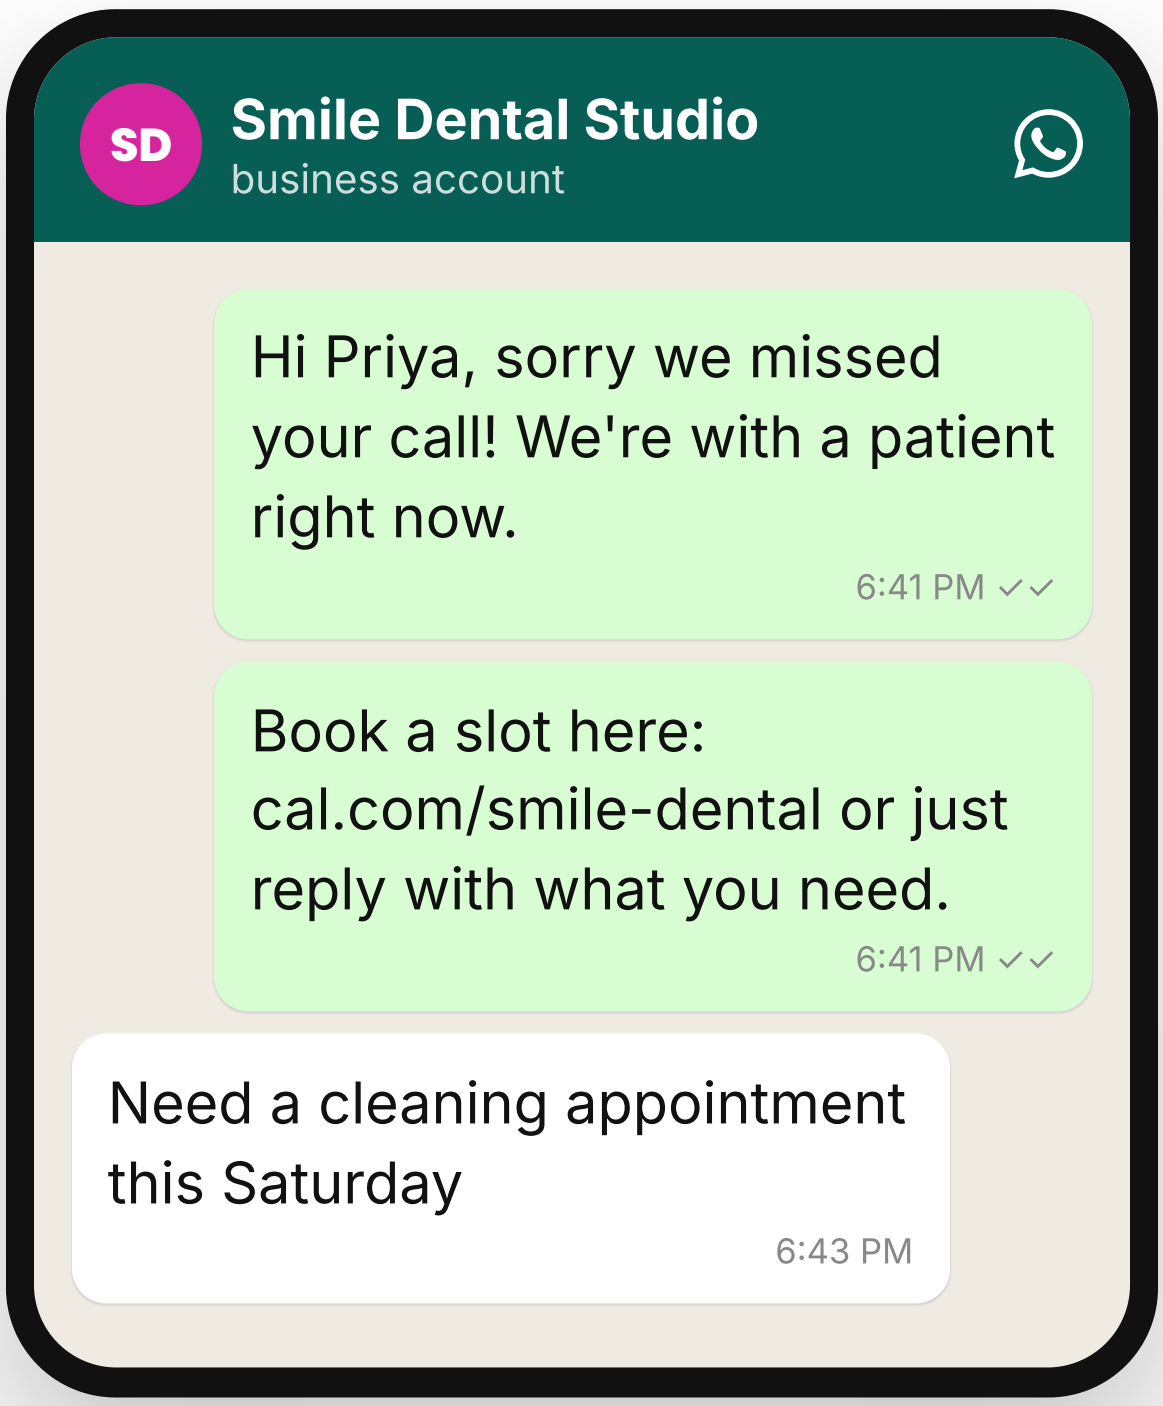

Look up caller

Check call history

Step 3

WhatsApp in about a minute

The caller gets your approved WhatsApp template: sorry we missed you, what we do, a booking link. A different one after hours. Nobody gets two in a row.

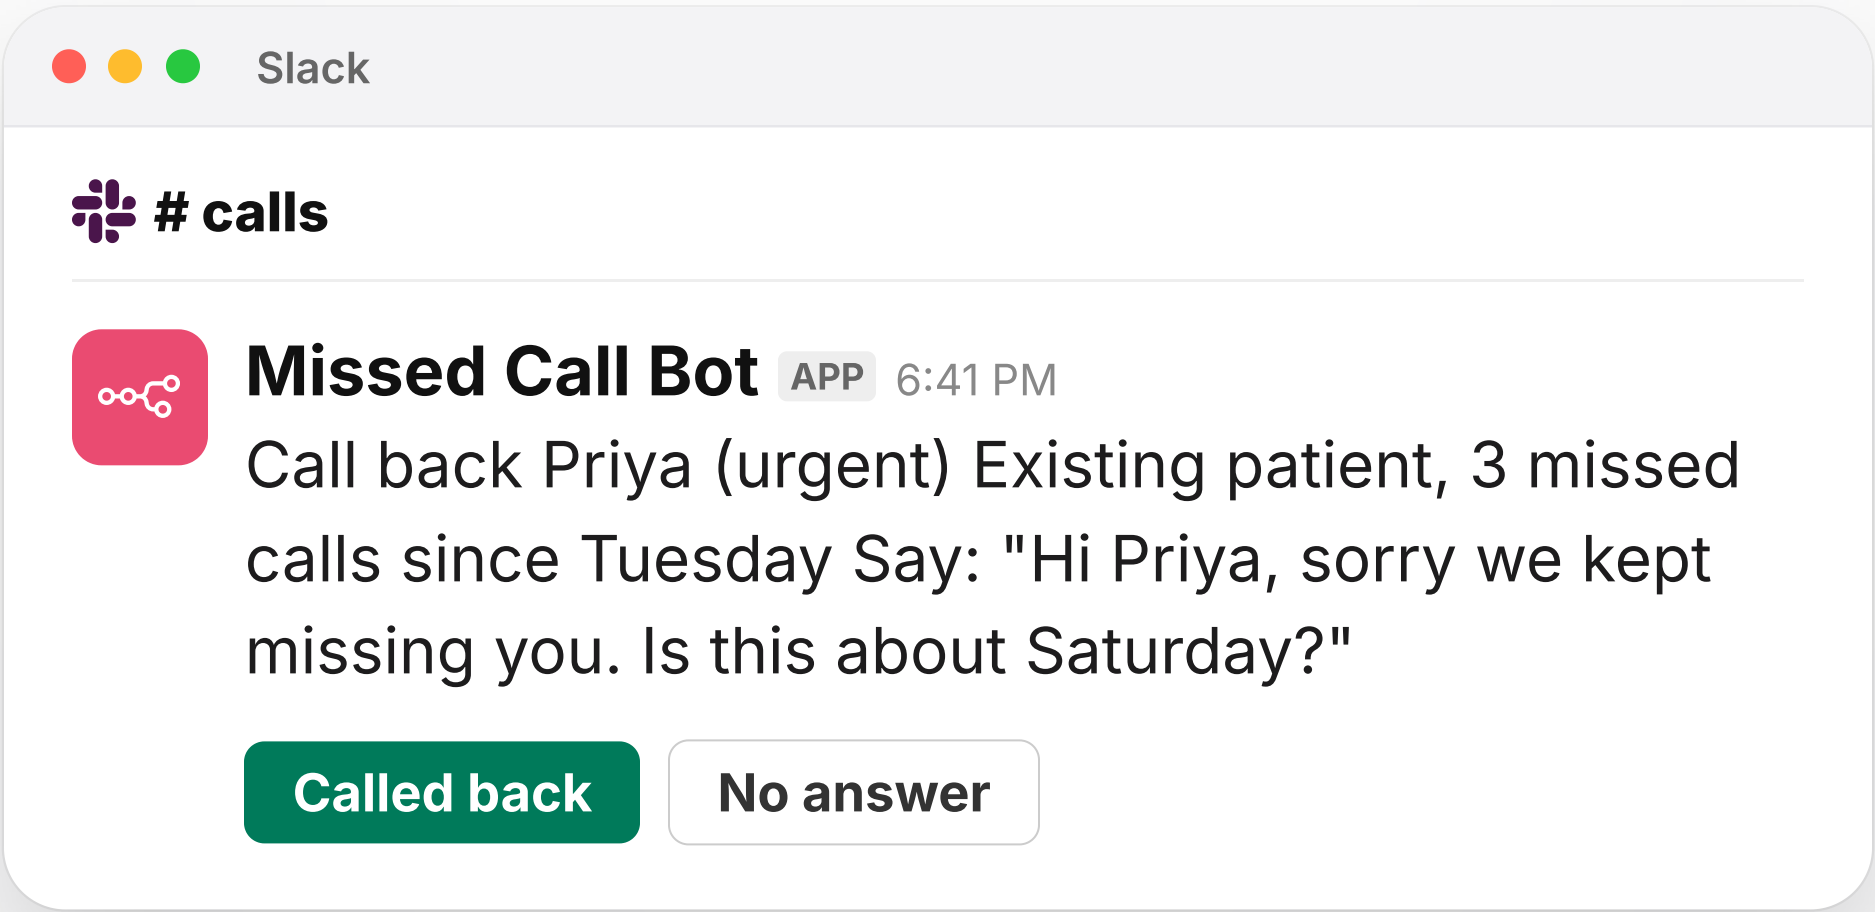

N8N NODES

- Messaged in last 2 hours?
- Send missed-call WhatsApp
- Log the call
- Alert: WhatsApp failed

Step 4

Repeat callers go to you

Existing customers and anyone who called twice this week are flagged. Claude writes a short call-back brief from their sheet row, and it lands in Slack with the number and a Called back button.

the right call, first

N8N NODES

- Repeat caller?
- Write call-back brief with Claude
- Ping owner to call back
- Log call-back outcome

What Changes

Before and after the workflow

BEFORE

- Missed calls seen at closing
- Callers try the next clinic
- Repeat callers ignored

AFTER

- WhatsApp in about a minute
- Booking link in their hand
- Repeat callers flagged to you

STAYS HUMAN

The caller only ever gets your own pre-approved WhatsApp template. Claude writes only for you, never to the customer.
