Gmail

your new pune warehouse

You
to anil@sharmatraders.in

Hi Anil, saw on your site that the new Pune warehouse now ships same day across Maharashtra. Usually that means a lot more WhatsApp orders to retype. Would it help if those turned into order rows on their own?

Swipe →

The Problem

"Hi {FirstName}, I came across..."

You need 20 good first emails a week. Writing a real one takes 15 minutes of reading their website. So the team sends a template, and nobody replies.

Gmail

Quick question

Sales
to info@company.com

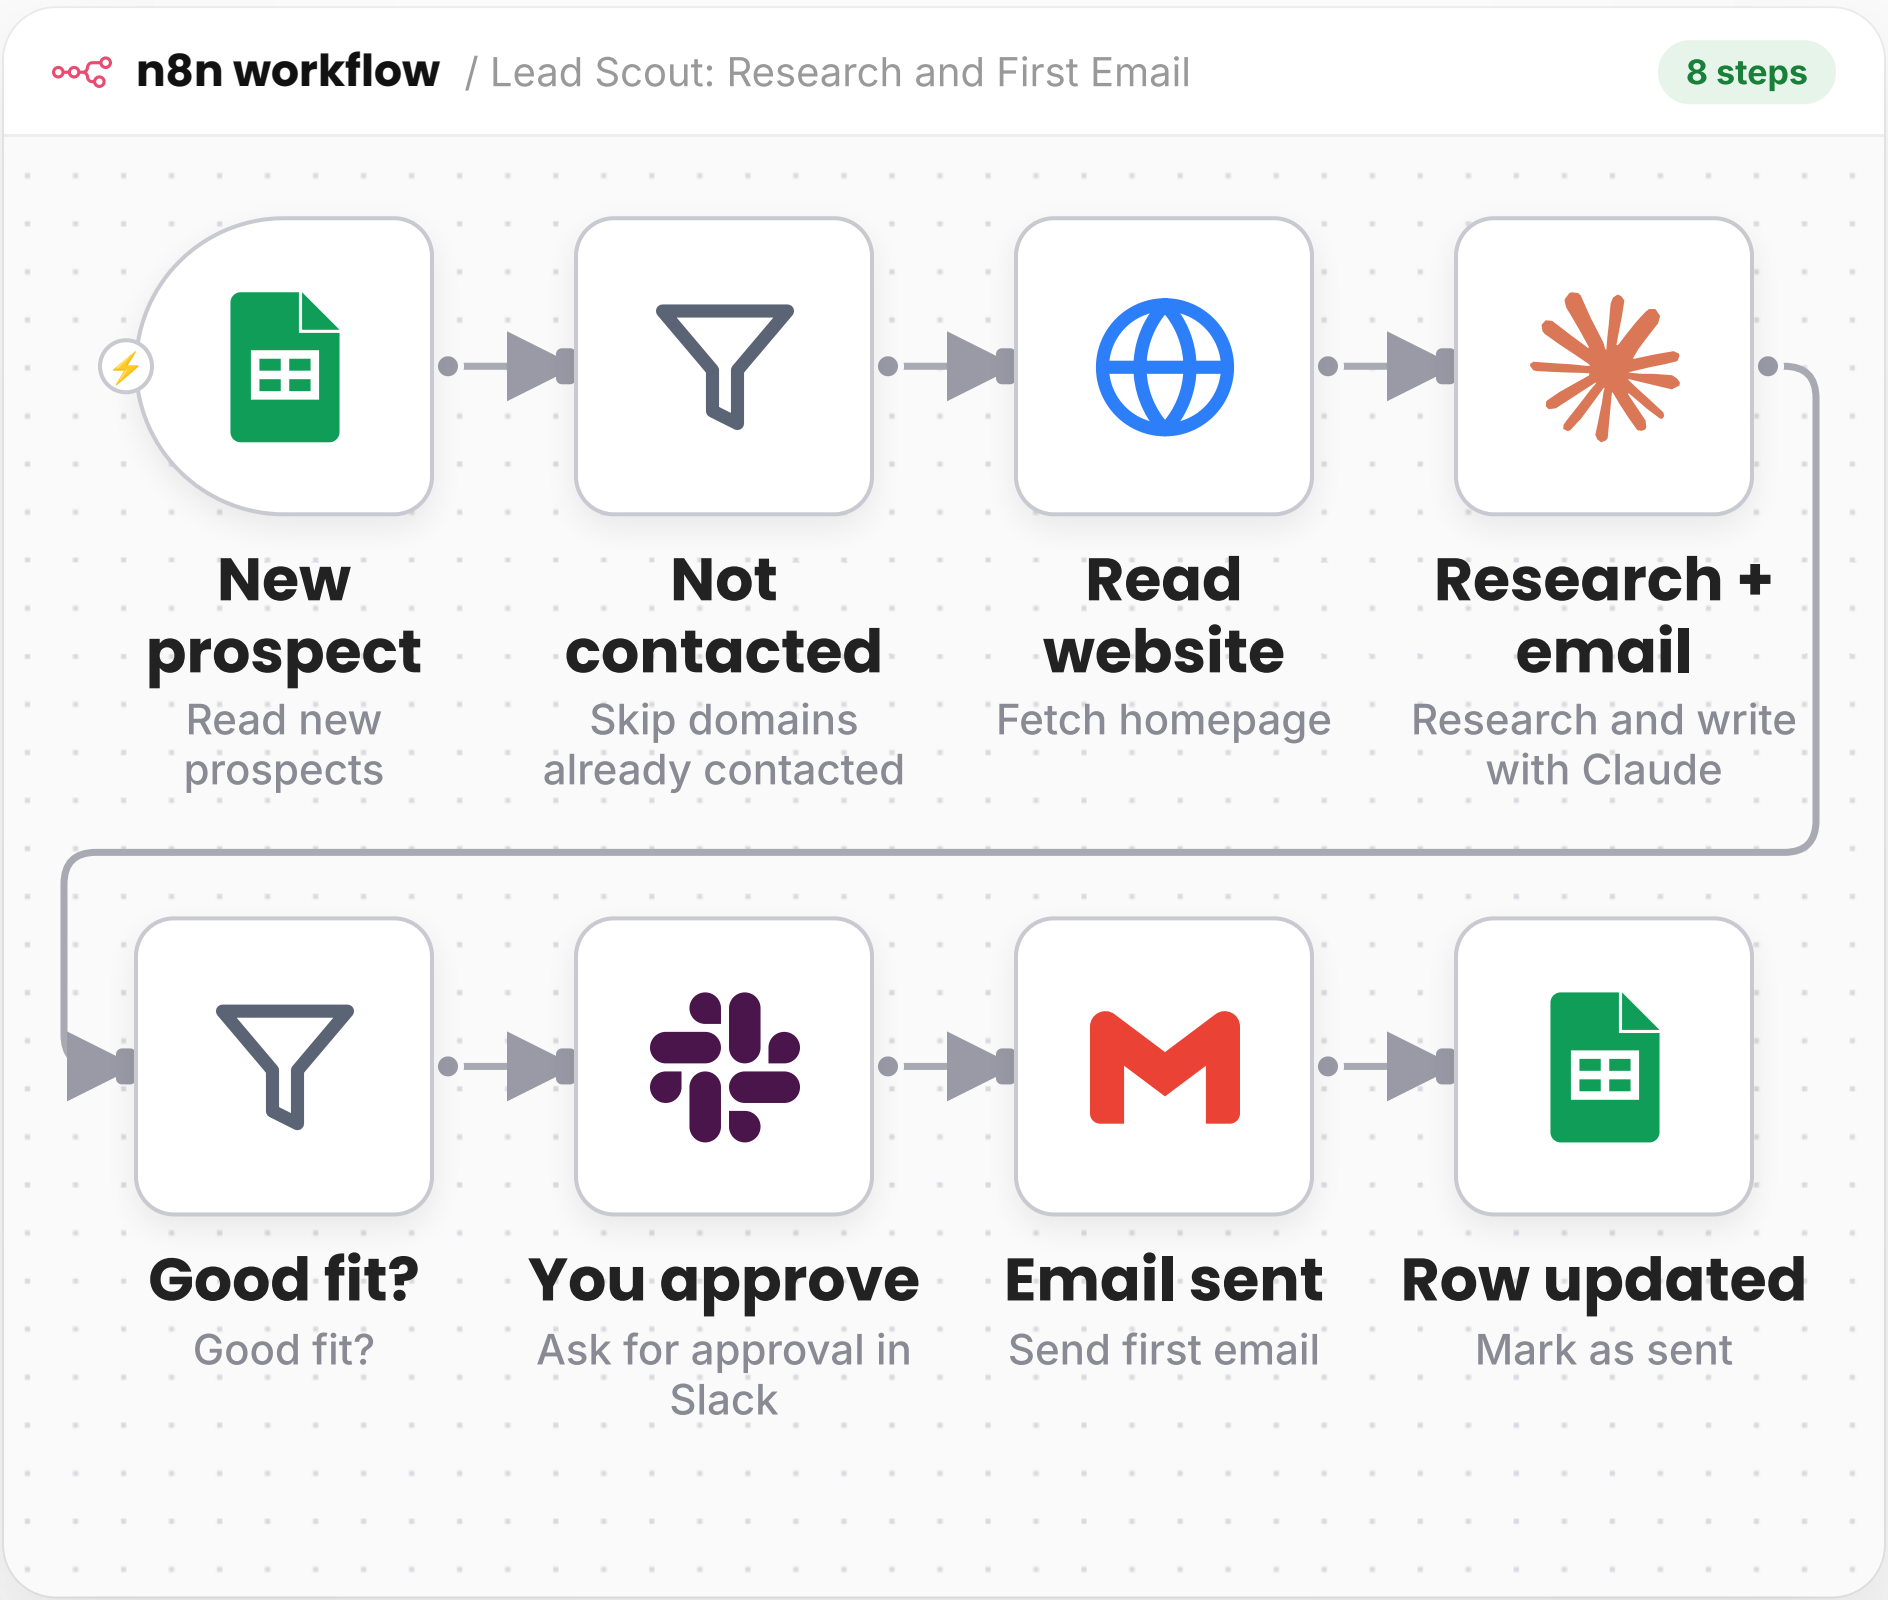

Hi {FirstName}, I hope this email finds you well. I came across your company and was impressed. We help businesses like yours grow. Do you have 15 minutes this week?

they can smell a template

The Workflow

Lead Scout: Research and First Email

Every box below is a node in the free workflow.

Step 1

Drop a website in the sheet

Paste a website, contact name and email into the Prospects sheet. Every 30 minutes n8n picks up new rows, cleans the URL, skips any company already contacted, and takes them one by one.

Google Sheets

Prospects

	Website	Contact	Email	Status
1	**sharmatraders.in**	**Anil**	**anil@...**	
2	glowclinic.co	Dr. Mehta	mehta@...	Sent
3	kumarpack.com	Ravi	ravi@...	Skipped

that's your only job

N8N NODES

- Every 30 minutes
- Read new prospects
- Clean up prospects
- Skip domains already contacted
- One prospect at a time

Step 2

The agent reads their website

n8n downloads the homepage and pulls out the title, headings and main text. Claude writes a summary, scores the fit 1 to 5, and finds one specific hook, quoting where it found it.

Claude

Research sharmatraders.in

Does	FMCG distributor, Pune
Fit	4 / 5
Hook	New Pune warehouse
Evidence	"Now shipping same day across Maharashtra"
Subject	your new pune warehouse

no hook found? no email

N8N NODES

Fetch homepage

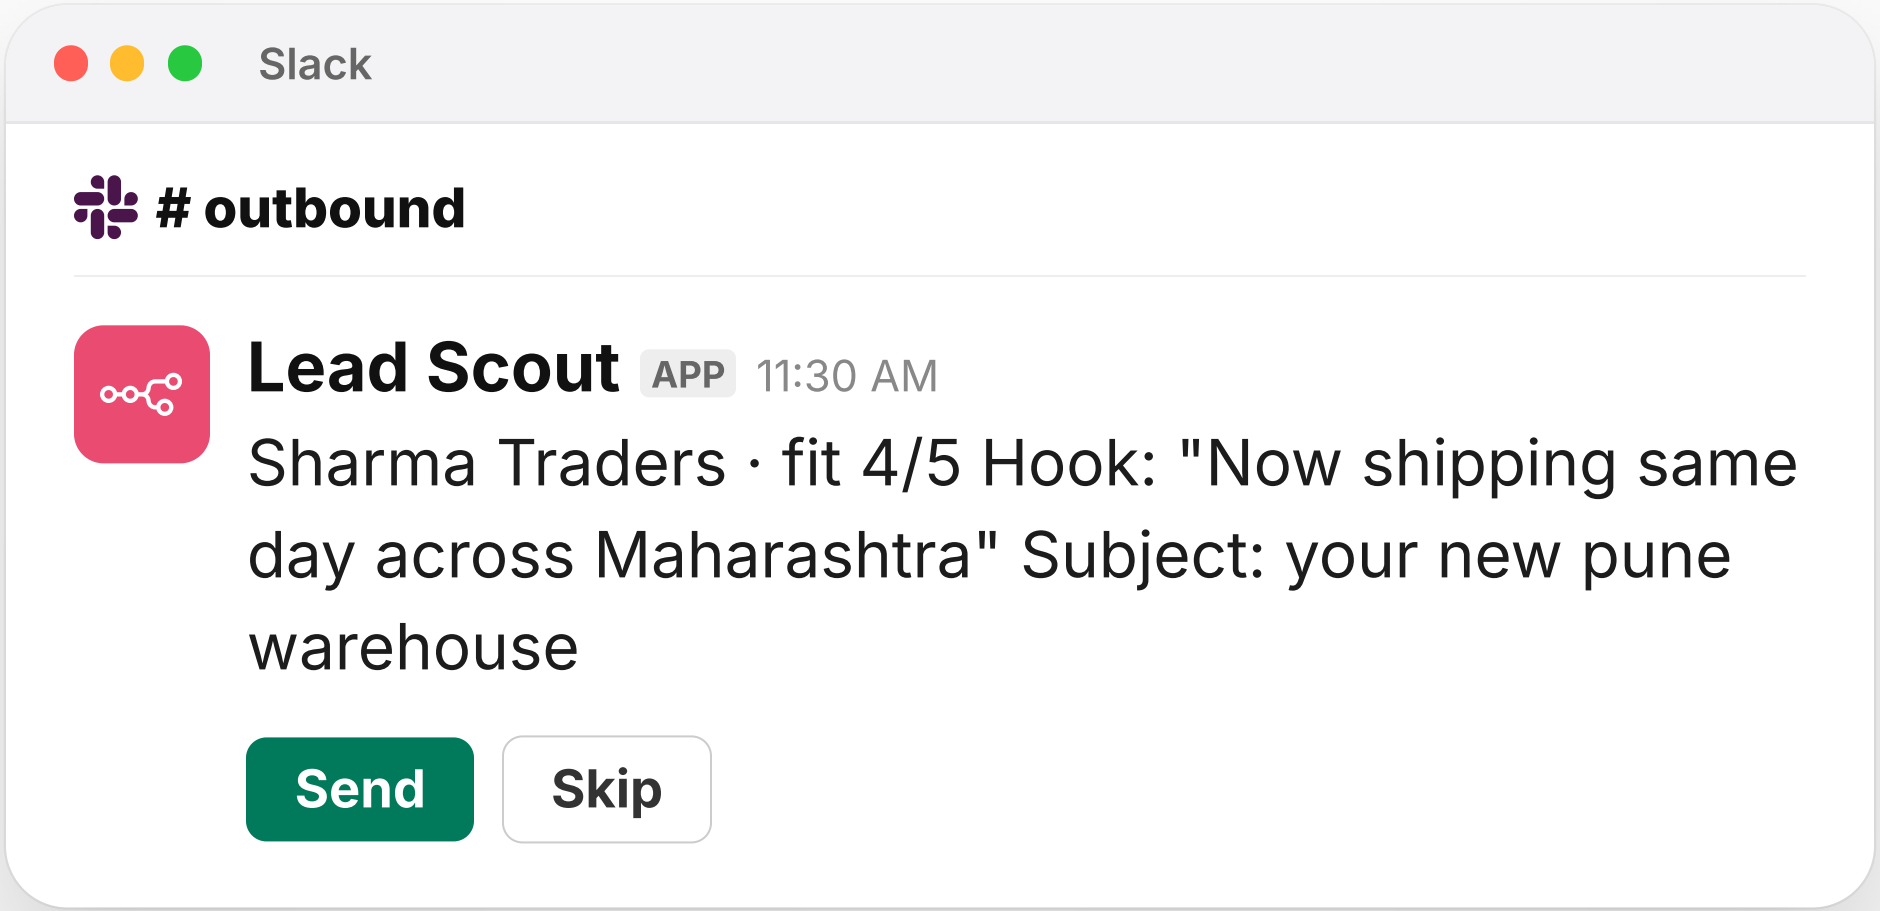

Extract page text

Research and write with Claude

Step 3

You approve in Slack

Weak fits are skipped with Claude's reason. Good ones reach Slack with the summary, the quote behind the hook and the full email. You tap Send or Skip.

N8N NODES

Good fit?

Ask for approval in Slack

Approved?

Step 4

Sent from your Gmail, logged

Approved emails go out from your own Gmail as plain text. The row is updated with status, hook, subject and thread id, ready for a follow-up. Failures alert you.

Gmail

your new pune warehouse

You
to anil@sharmatraders.in

Hi Anil, saw that the new Pune warehouse now ships same day across Maharashtra. That usually means a lot more WhatsApp orders to retype. Would it help if those became order rows on their own?

N8N NODES

Send first email

Mark as sent

Alert: send failed

Mark as skipped

What Changes

Before and after the workflow

BEFORE

- 15 minutes per real email
- Templates nobody answers
- Same company emailed twice

AFTER

- Researched while you work
- Every email has a real hook
- One company, one email

STAYS HUMAN

Nothing is sent until you tap Send in Slack. No hook from their website, no email.
