Overdue bills?
Kind reminders
(n8n + Razorpay)

The Problem

₹6.2 lakh stuck. Nobody wants to ask.

Every distributor has a list of customers who are 'good people, just late'. Asking feels awkward, so reminders go out when someone remembers, and the list keeps growing.

Google Sheets

Unpaid invoices

	Customer	Amount	Due	Reminded
1	Anil Stores	₹38,500	26 Sep	never
2	Rao Kirana	₹12,200	2 Oct	never
3	**Mehta Agencies**	**₹1,40,000**	**15 Sep**	**once, by call**
4	Gupta Mart	₹22,750	9 Oct	never

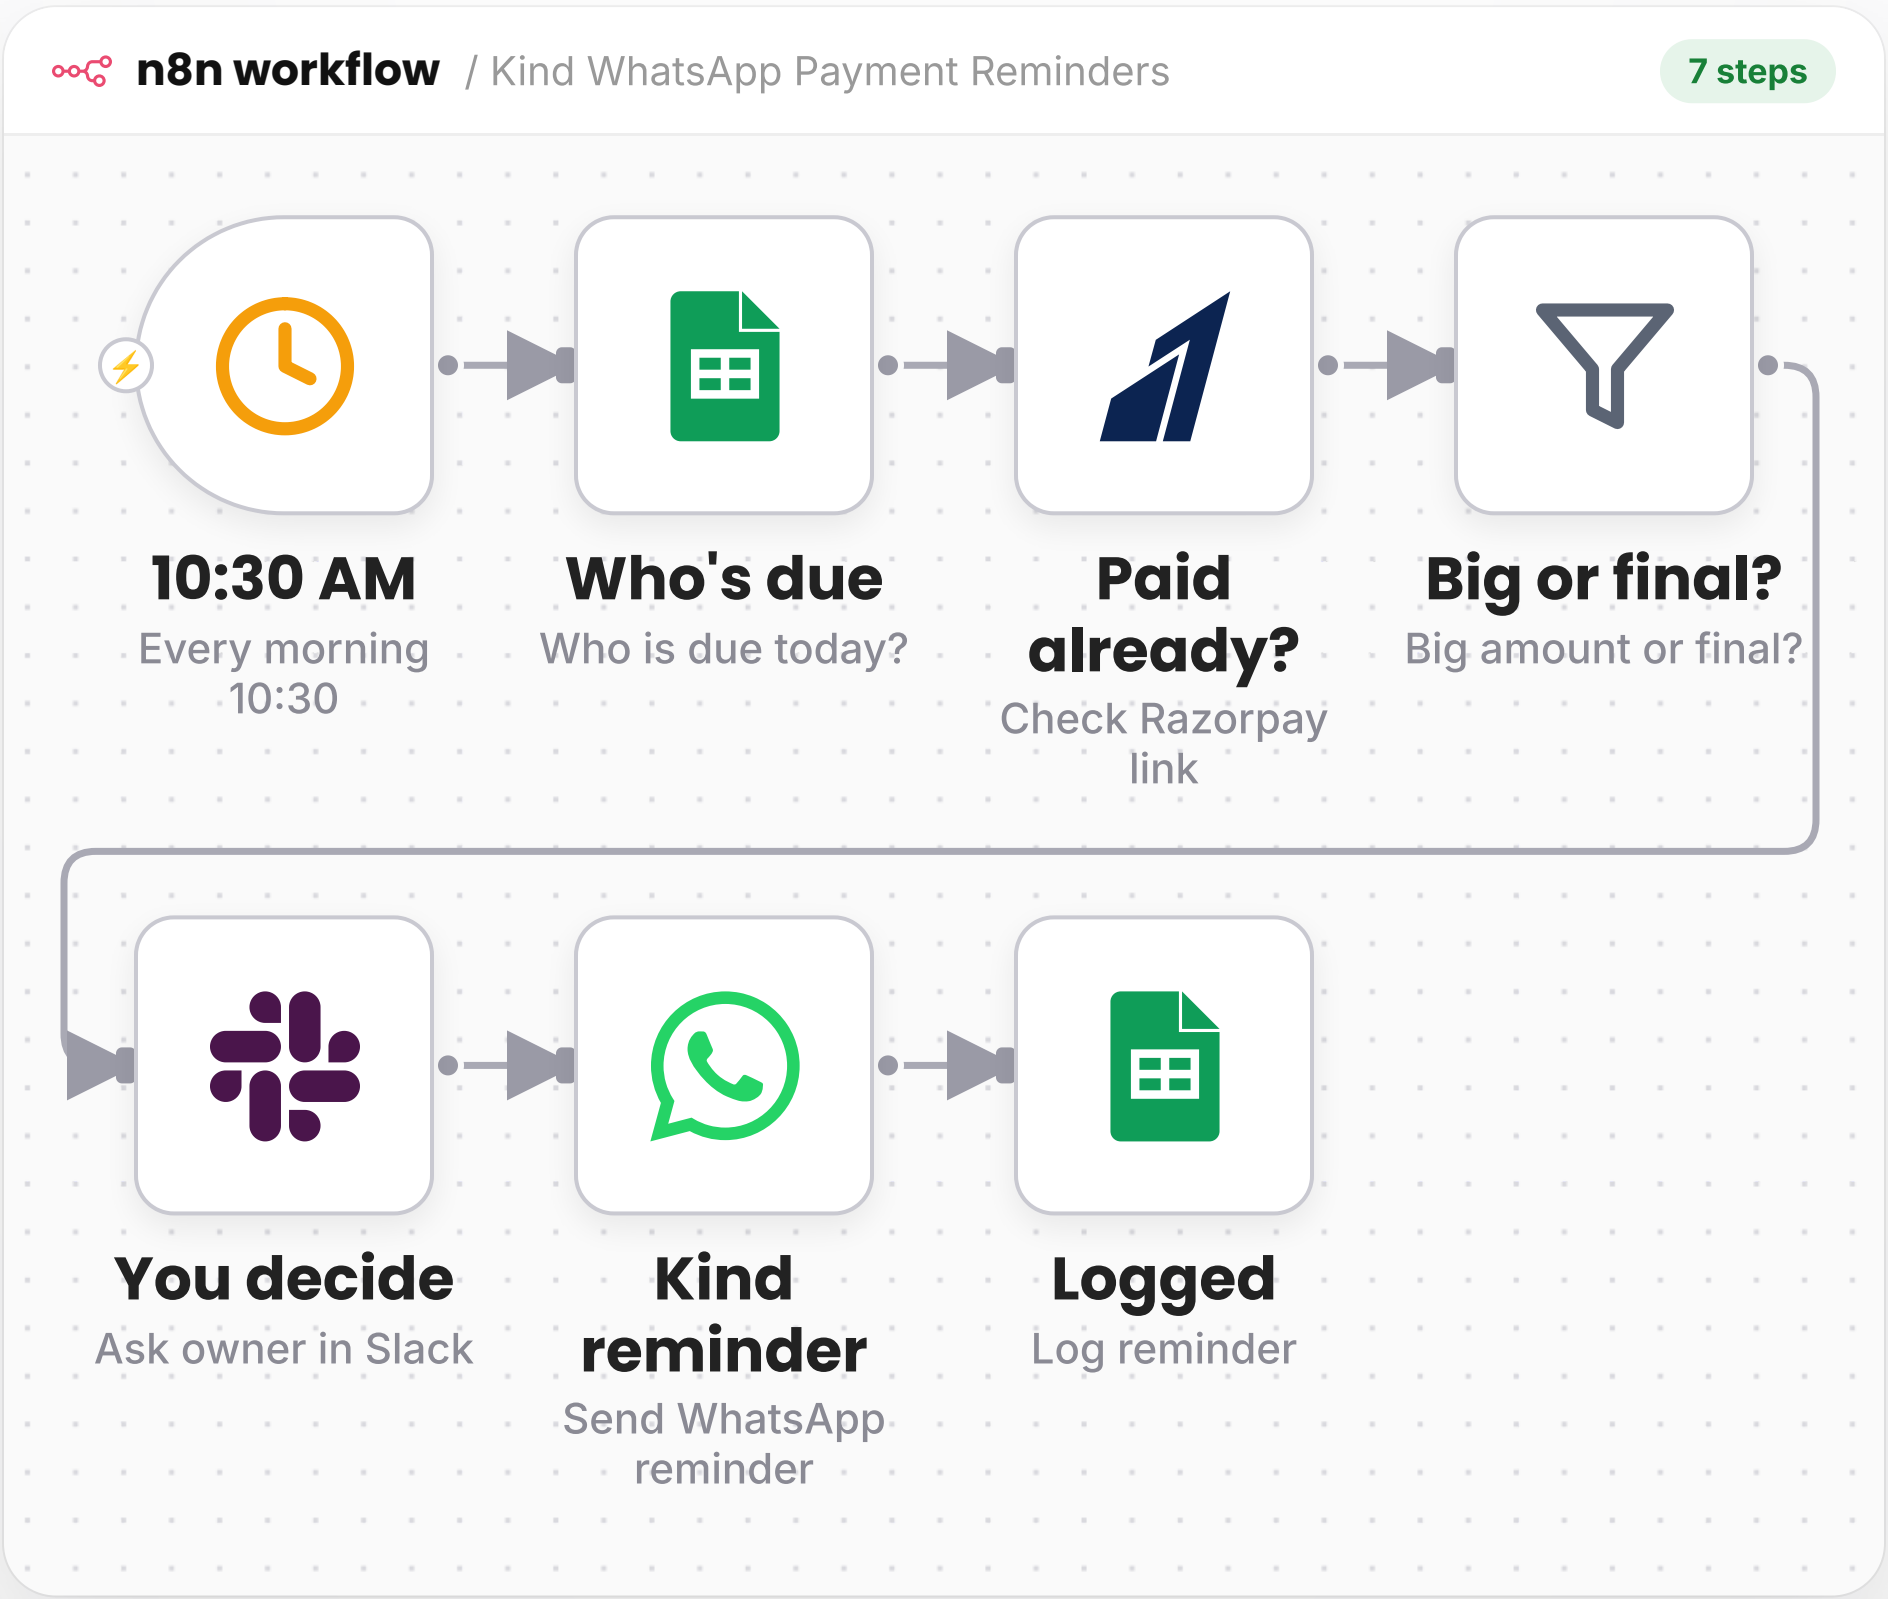

awkward = never sent

The Workflow

Kind WhatsApp Payment Reminders

Every box below is a node in the free workflow.

Step 1

Find who is due today

Every morning n8n reads your Invoices sheet and picks invoices exactly 1, 7 or 15 days past due. Paid, paused and already reminded ones are skipped. Max 50 a day.

- Day 1 late: gentle reminder
- Day 7 late: follow-up
- Day 15 late: final, to you first
- Paid or paused: skipped
- Never twice in one day

N8N NODES

Every morning 10:30 → Read unpaid invoices → Who is due today? → Has a payment link?

Step 2

Paid already? It stops

Before every reminder, n8n asks Razorpay if the link is paid. Paid means the row is marked Paid and nothing is sent. No link yet? It creates one for the exact amount.

```
{
  "id": "plink_Xyz...",
  "amount": 3850000,
  "status": "paid",
  "reference_id": "INV-1043"
}
```

no awkward 'already paid!' replies

Step 3

Big amounts go to you first

Rs 50,000 or more, or a final day 15 reminder? Claude writes you a short brief: send or call, and a warm first line for the call. You tap Send reminder or I'll call.

N8N NODES

Big amount or final? | Brief owner with Claude | Ask owner in Slack | Owner approved?

Step 4

A kind WhatsApp, logged

The right template for the stage goes out with the invoice number, amount and Razorpay link. The row is updated. If WhatsApp fails, you get a Slack alert.

N8N NODES

- Send WhatsApp reminder
- Log reminder
- Alert: reminder failed
- Mark for a call

What Changes

Before and after the workflow

BEFORE

- Reminders when someone remembers
- 'Already paid!' embarrassment
- Big accounts nagged by a bot

AFTER

- Day 1, 7, 15 on time
- Stops the moment they pay
- Big ones go to you first

STAYS HUMAN

Paid invoices stop automatically, and anything over Rs 50,000 or any final reminder waits for your tap in Slack.
