Cart abandoned?

The Problem

9:12 PM. ₹2,340 cart. Gone.

Riya adds two kurtas, reaches the payment page, and her phone rings. Shopify saves the cart with her number. The only follow-up is a default email that lands in Promotions. Nobody uses the number.

Abandoned checkouts

	Customer	Cart	Total	Followed up
1	**Riya S.**	**2 cotton kurtas**	**₹2,340**	**No**
2	Aman K.	Silk saree	₹6,900	No
3	Neha P.	Dupatta set	₹1,150	No
4	Farhan	3 kurtas	₹3,480	No

the number was right there

The Workflow

Abandoned Cart Recovery on WhatsApp

Every box below is a node in the free workflow.

Step 1

Find carts left for an hour

Every 30 minutes n8n asks Shopify for checkouts started 1 to 3 hours ago that were never paid, and splits them into one row per cart.

Google Sheets

Open checkouts · 10:15 PM

	Customer	Cart	Total	Left at
1	**Riya S.**	**2 cotton kurtas**	**₹2,340**	**9:12 PM**
2	Aman K.	Silk saree	₹6,900	8:47 PM
3	Neha P.	Dupatta set	₹1,150	8:30 PM

One row per cart

Step 2

Only people you may message

Each cart is cleaned up: first name, phone with 91, items and total. Carts with no valid mobile number or no marketing consent are dropped, and no cart is ever messaged twice.

- [x] Valid Indian mobile number
- [x] Marketing consent ticked
- [x] Not paid yet
- [x] Never messaged before

consent first, always

Step 3

Check they didn't just buy

One cart at a time, n8n asks Shopify for any order from the same customer since the cart was started. Bought on another tab, or by COD? No message.

Output · JSON

```
GET /orders.json
  email: riya@...
  since: 9:12 PM

"orders": []
→ still not ordered
```

Step 4

Claude writes a friendly nudge

Claude writes one short, human line about what is in the cart, like 'the two cotton kurtas in size M'. No fake urgency, no 'only 2 left'. Carts above ₹3,000 are marked as big.

Claude

Write the cart phrase

Customer	Riya
Cart	2 x Cotton Kurta (M)
Phrase	the two cotton kurtas in size M
Big cart	No (₹2,340)
Urgency	None, on purpose

Big cart?

Step 5

Discount only if you say so

Normal carts get a plain WhatsApp reminder with the checkout link. Big carts come to Slack first: tap 'Add 5% code' and they get the offer, skip it and they get the plain reminder. Everything is logged.

margin protected

N8N NODES

- Approve discount
- Approved?
- Send with discount
- Send cart reminder
- Log recovery
- Alert owner

What Changes

Before and after the workflow

BEFORE

- Carts left with no follow-up
- Discounts given to everyone
- Reminder lost in Promotions

AFTER

- Friendly WhatsApp after an hour
- Codes only on carts you approve
- Every reminder logged

STAYS HUMAN

No discount goes out unless you tap Approve. People without marketing consent are never messaged.
