312 comments,
312 DMs sent
(n8n + Claude)

The Problem

1 AM, copy-pasting a link

Ananya's reel said "Comment PLAN". By 1 AM it has 312 comments. She is pasting the same link into DMs one by one, and the people asking about fees are buried under them.

Instagram · 1:04 AM

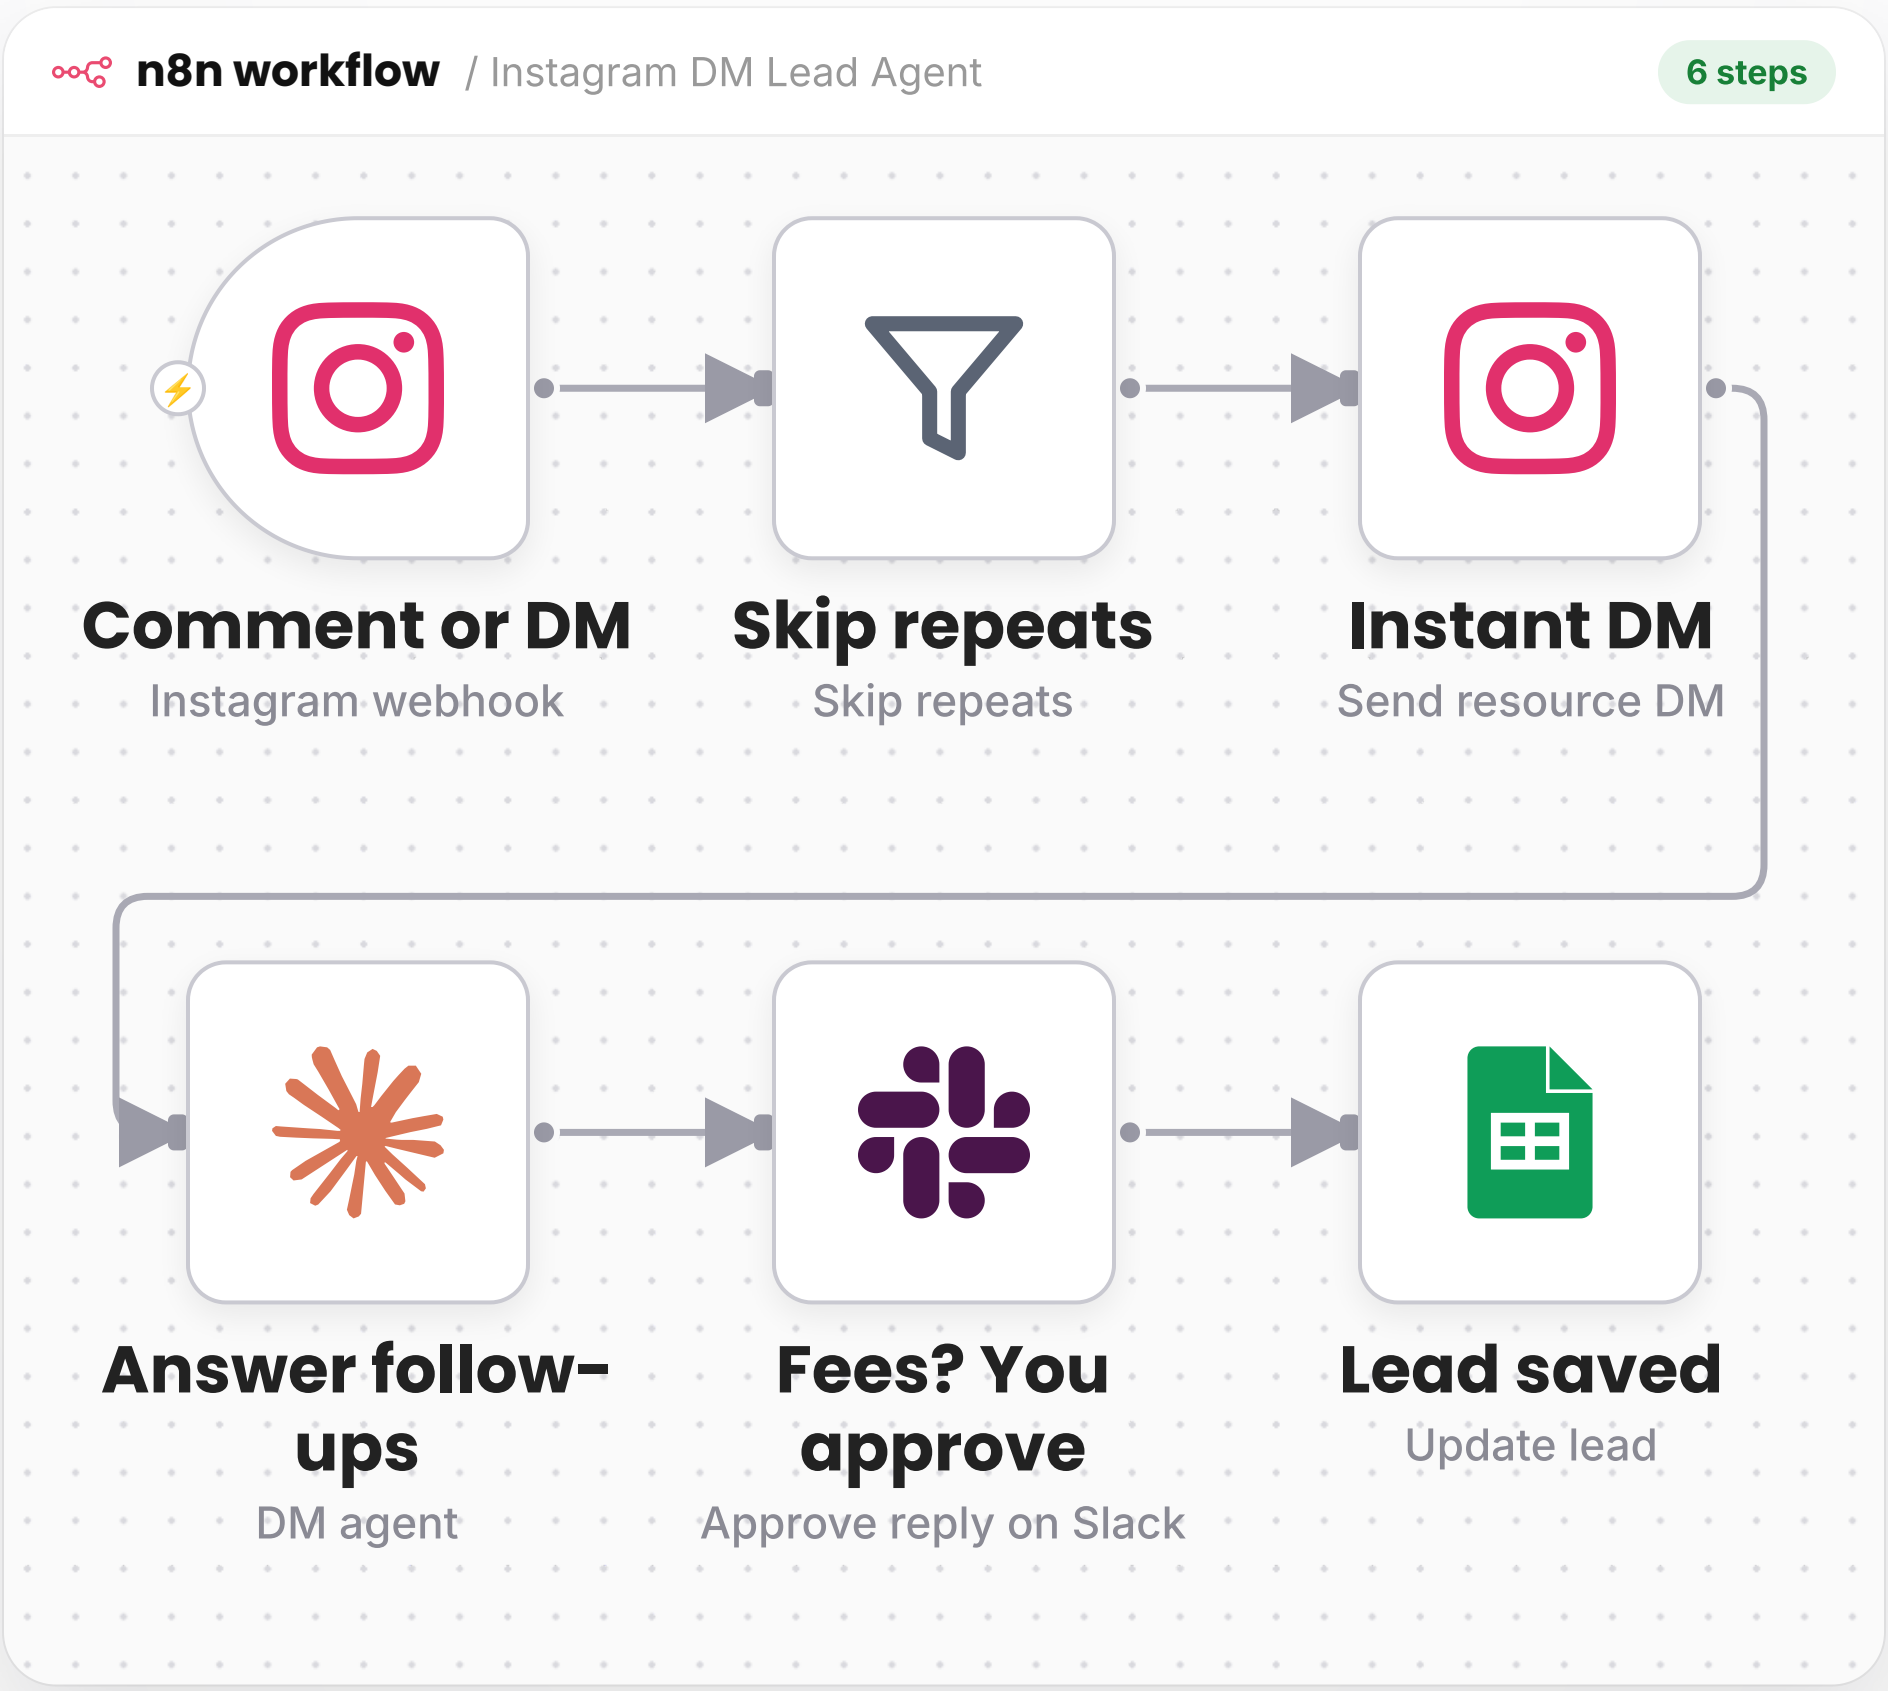

RK	**riya.k** PLAN please!!	1:03
M	**meghna_s** PLAN	1:02
AF	**arjun.fit** plan 🙏	1:01
NR	**neha.r** fees for coaching?	12:58 Lead
K	**kavya_p** PLAN	12:57

the paying lead is #4

The Workflow

Instagram DM Lead Agent

Every box below is a node in the free workflow.

Step 1

Catch every comment and DM

Instagram sends each new comment and DM to an n8n webhook. n8n cleans it up, ignores your own replies, skips anything it has already seen, and splits comments from DMs.

Output · JSON

```
{
  "kind": "comment",
  "username": "riya.k",
  "text": "PLAN please!!",
  "media_id": "1790..."
}
```

Meta retries, we don't double-DM

N8N NODES

Meta verify (GET) · Return challenge · Instagram webhook · Clean up event · Skip repeats · Comment or DM?

Step 2

Keyword comment, instant DM

If the comment has a keyword from your sheet, like PLAN, the person gets a private DM with the link in seconds, a short public reply under the comment, and a row in your Leads sheet.

while she's asleep

N8N NODES

- Get keyword list
- Match keyword
- Send resource DM
- Reply to comment
- Log lead from comment

Step 3

Claude answers the follow-ups

When they reply with a question, Claude answers from your FAQ sheet, remembers the last 10 messages, and notes their name and what they need.

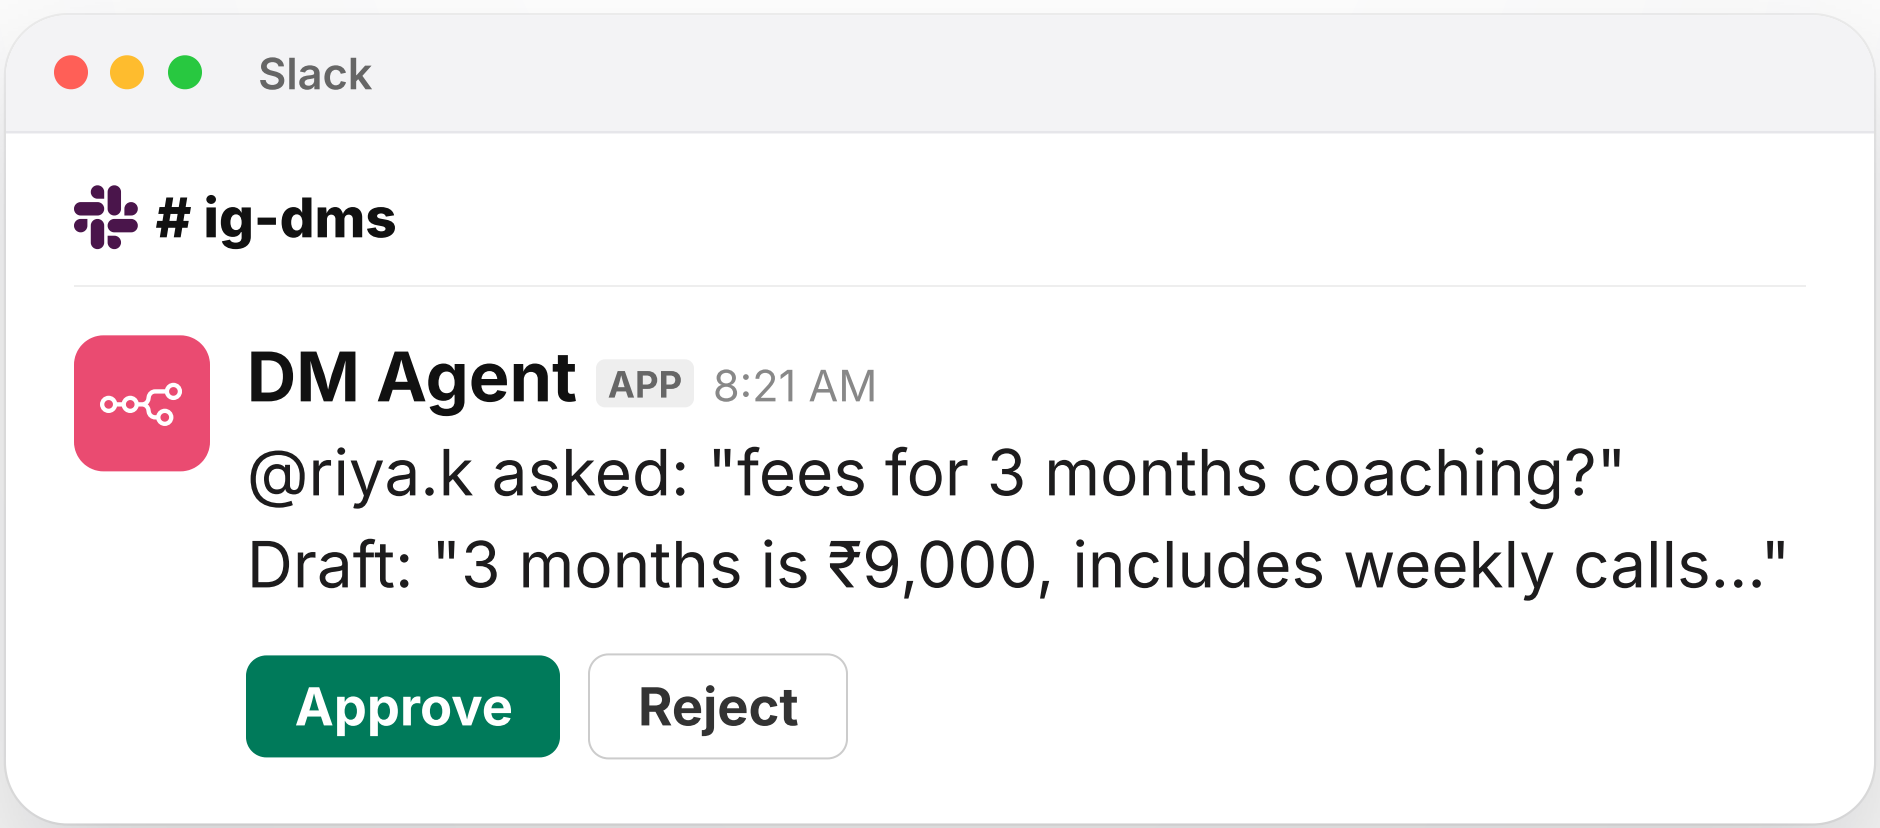

N8N NODES

DM agent · Claude · Chat memory · Look up FAQ · Reply format

Step 4

Fees and complaints wait for you

Questions about fees, refunds or anything unclear never go out on their own. Claude's draft comes to Slack and only goes out when you tap Approve.

N8N NODES

- Send or ask you?
- Approve reply on Slack
- Approved?
- Send DM reply

Step 5

Every lead in one sheet

Each person is one row: username, keyword, what they need, last message and status. If Instagram refuses a send, you get a Slack alert instead of a silent miss.

Google Sheets

IG Leads

	User	Keyword	Need	Status
1	**riya.k**	**PLAN**	**PCOS, veg**	**Asked fees**
2	meghna_s	PLAN	Weight loss	DM sent
3	arjun.fit	PLAN	Gym diet	Replied

N8N NODES **Update lead** **Send failed alert**

What Changes

Before and after the workflow

BEFORE

- Pasting one link 300 times
- Fee questions lost in the pile
- No list of who asked what

AFTER

- Every keyword gets a DM in seconds
- Fee questions wait for your tap
- Every lead in one sheet

STAYS HUMAN

Anything about fees, refunds or complaints is sent only after you tap Approve in Slack.
