AMC ended.
Nobody called.
(n8n + Claude)

The Problem

The AMC lapsed on 2 Nov

Mr. Kapoor's AC AMC ended on 2 Nov. The end date was row 214 of an Excel file nobody opened. On 9 Nov his AC broke, and he called another company.

The Workflow

Renewal Radar for AMCs and Contracts

Every box below is a node in the free workflow.

Step 1

Every end date, checked at 9 AM

Each morning n8n reads your Contracts sheet and works out the days left on every AMC, subscription and contract. Only the ones at 30, 7 or 1 day that have not had that reminder yet go forward.

Google Sheets

Contracts

	Customer	Service	Ends	Days left
1	**R. Kapoor**	**AC AMC (3 units)**	**14 Nov**	**1**
2	Sharma Traders	Water purifier AMC	20 Nov	7
3	Dr. Mehta Clinic	CCTV AMC	13 Dec	30
4	Anil Gupta	AC AMC (1 unit)	28 Feb	107

no more "kab khatam hua?"

N8N NODES

Every morning 9 AM → Get contracts → Work out days left → Get renewal plans → Due for a reminder?

Step 2

Claude writes each reminder

For every due contract, Claude writes a short, polite email from your plan details: what renewal includes, the price and the pay link. The tone changes from heads-up at 30 days to last day at 1.

Your AC AMC ends tomorrow (14 Nov)

VC **Verma Cool Care**
to R. Kapoor

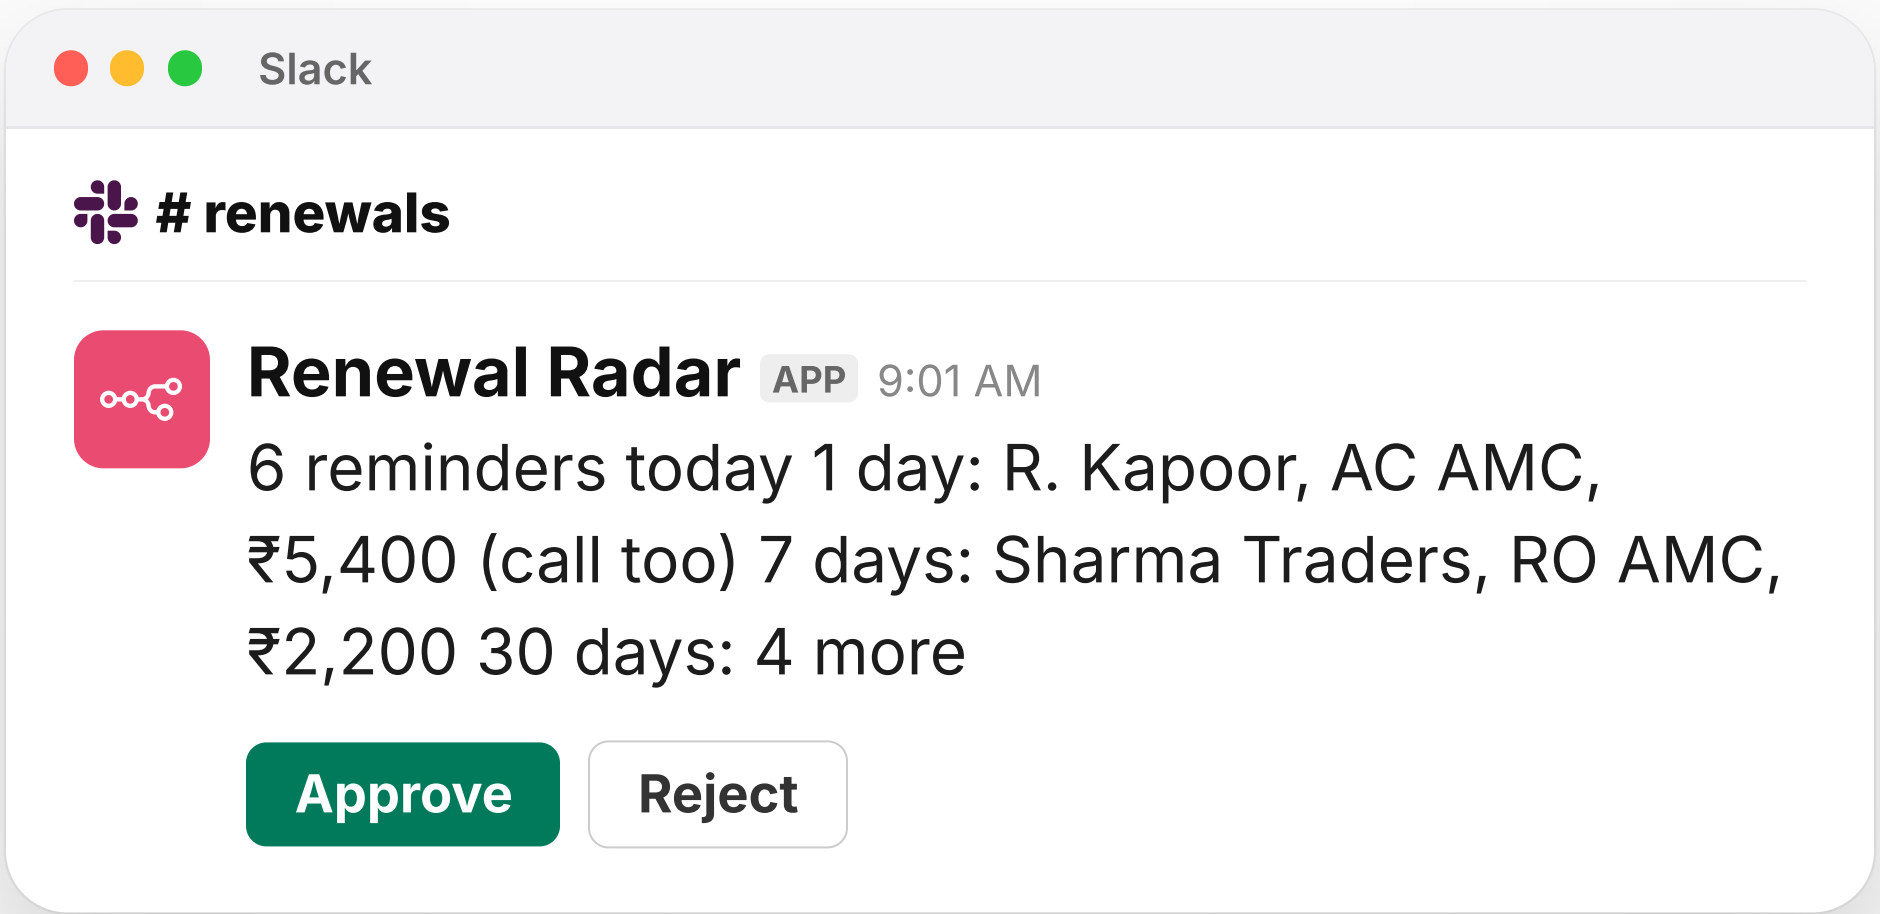

Namaste Mr. Kapoor, your AMC for 3 ACs ends tomorrow. Renewal is ₹5,400 for 12 months and includes 3 services and free gas top-up checks. Renew here: [pay link]

N8N NODES **Write renewal message** **Claude** **Reminder format** **Build today's list**

Step 3

You approve the list in one tap

Before anything reaches a customer, today's full list comes to Slack: who, which service, days left, price. One Approve sends them all. Reject sends nothing.

Step 4

WhatsApp and email go out

Each customer gets an approved WhatsApp template with their service, end date and price, plus the email if you have their address. Sends go one by one with a short pause.

N8N NODES

- One row per contract
- Loop over contracts
- Send WhatsApp reminder
- Has email?
- Send email reminder
- Pause 1 second

Step 5

Never the same reminder twice

After each send, the sheet records which reminder went out and when, so tomorrow's run skips it. If WhatsApp fails, Slack tells you who to call.

Contracts

	Customer	Ends	Last reminder	Sent on
1	**R. Kapoor**	**14 Nov**	**1 day**	**13 Nov**
2	Sharma Traders	20 Nov	7 days	13 Nov
3	Dr. Mehta Clinic	13 Dec	30 days	13 Nov

What Changes

Before and after the workflow

BEFORE

- End dates in a file nobody opens
- Customers find out when it breaks
- Renewals lost to whoever picks up

AFTER

- Every end date checked at 9 AM
- Reminders at 30, 7 and 1 day
- One tap approves the day's list

STAYS HUMAN

No reminder reaches a customer until you approve the day's list in Slack.
