11:14 PM enquiry answered by AI (n8n + Claude)

The Problem

11:14 PM. Booked elsewhere.

A patient asks about a root canal late at night. Your front desk replies at 10:30 AM. By then another clinic replied at 11:20 PM and she has already booked there.

The Workflow

After-Hours Enquiry Agent

Every box below is a node in the free workflow.

Step 1

Only after hours

Every WhatsApp to your number reaches n8n, but the agent only answers between 8 PM and 9 AM and on Sundays. In working hours your team replies as usual.

- [x] 11:14 PM, Sunday night
- [x] Text message, not a repeat
- [x] Outside 9 AM to 8 PM
- [x] Agent answers

your team keeps the day

N8N NODES

WhatsApp Trigger · Clean up message · Skip repeats · After hours?

Step 2

Claude answers from your price list

Claude replies in the patient's language using only your price list sheet, remembers the chat, and never quotes a price that isn't there.

N8N NODES

Night agent · Claude · Chat memory · Price list · Reply format · Send night reply

Step 3

A slot is held, not booked

If they want to come, Claude checks the calendar and holds one free slot marked HOLD, tells them the team will confirm by 9:30 AM, and logs the enquiry. Pain or swelling goes to the on-call doctor.

Step 4

9 AM list for your team

At 9 AM n8n reads every held enquiry from last night and sends each one to Slack: who, what, which slot, and what Claude told them.
