The Problem

"There was a test?"

Saturday 7 PM. A parent calls the coaching centre: her son said there was no test this week. He scored 11/25 and missed 2 classes. Nobody told her.

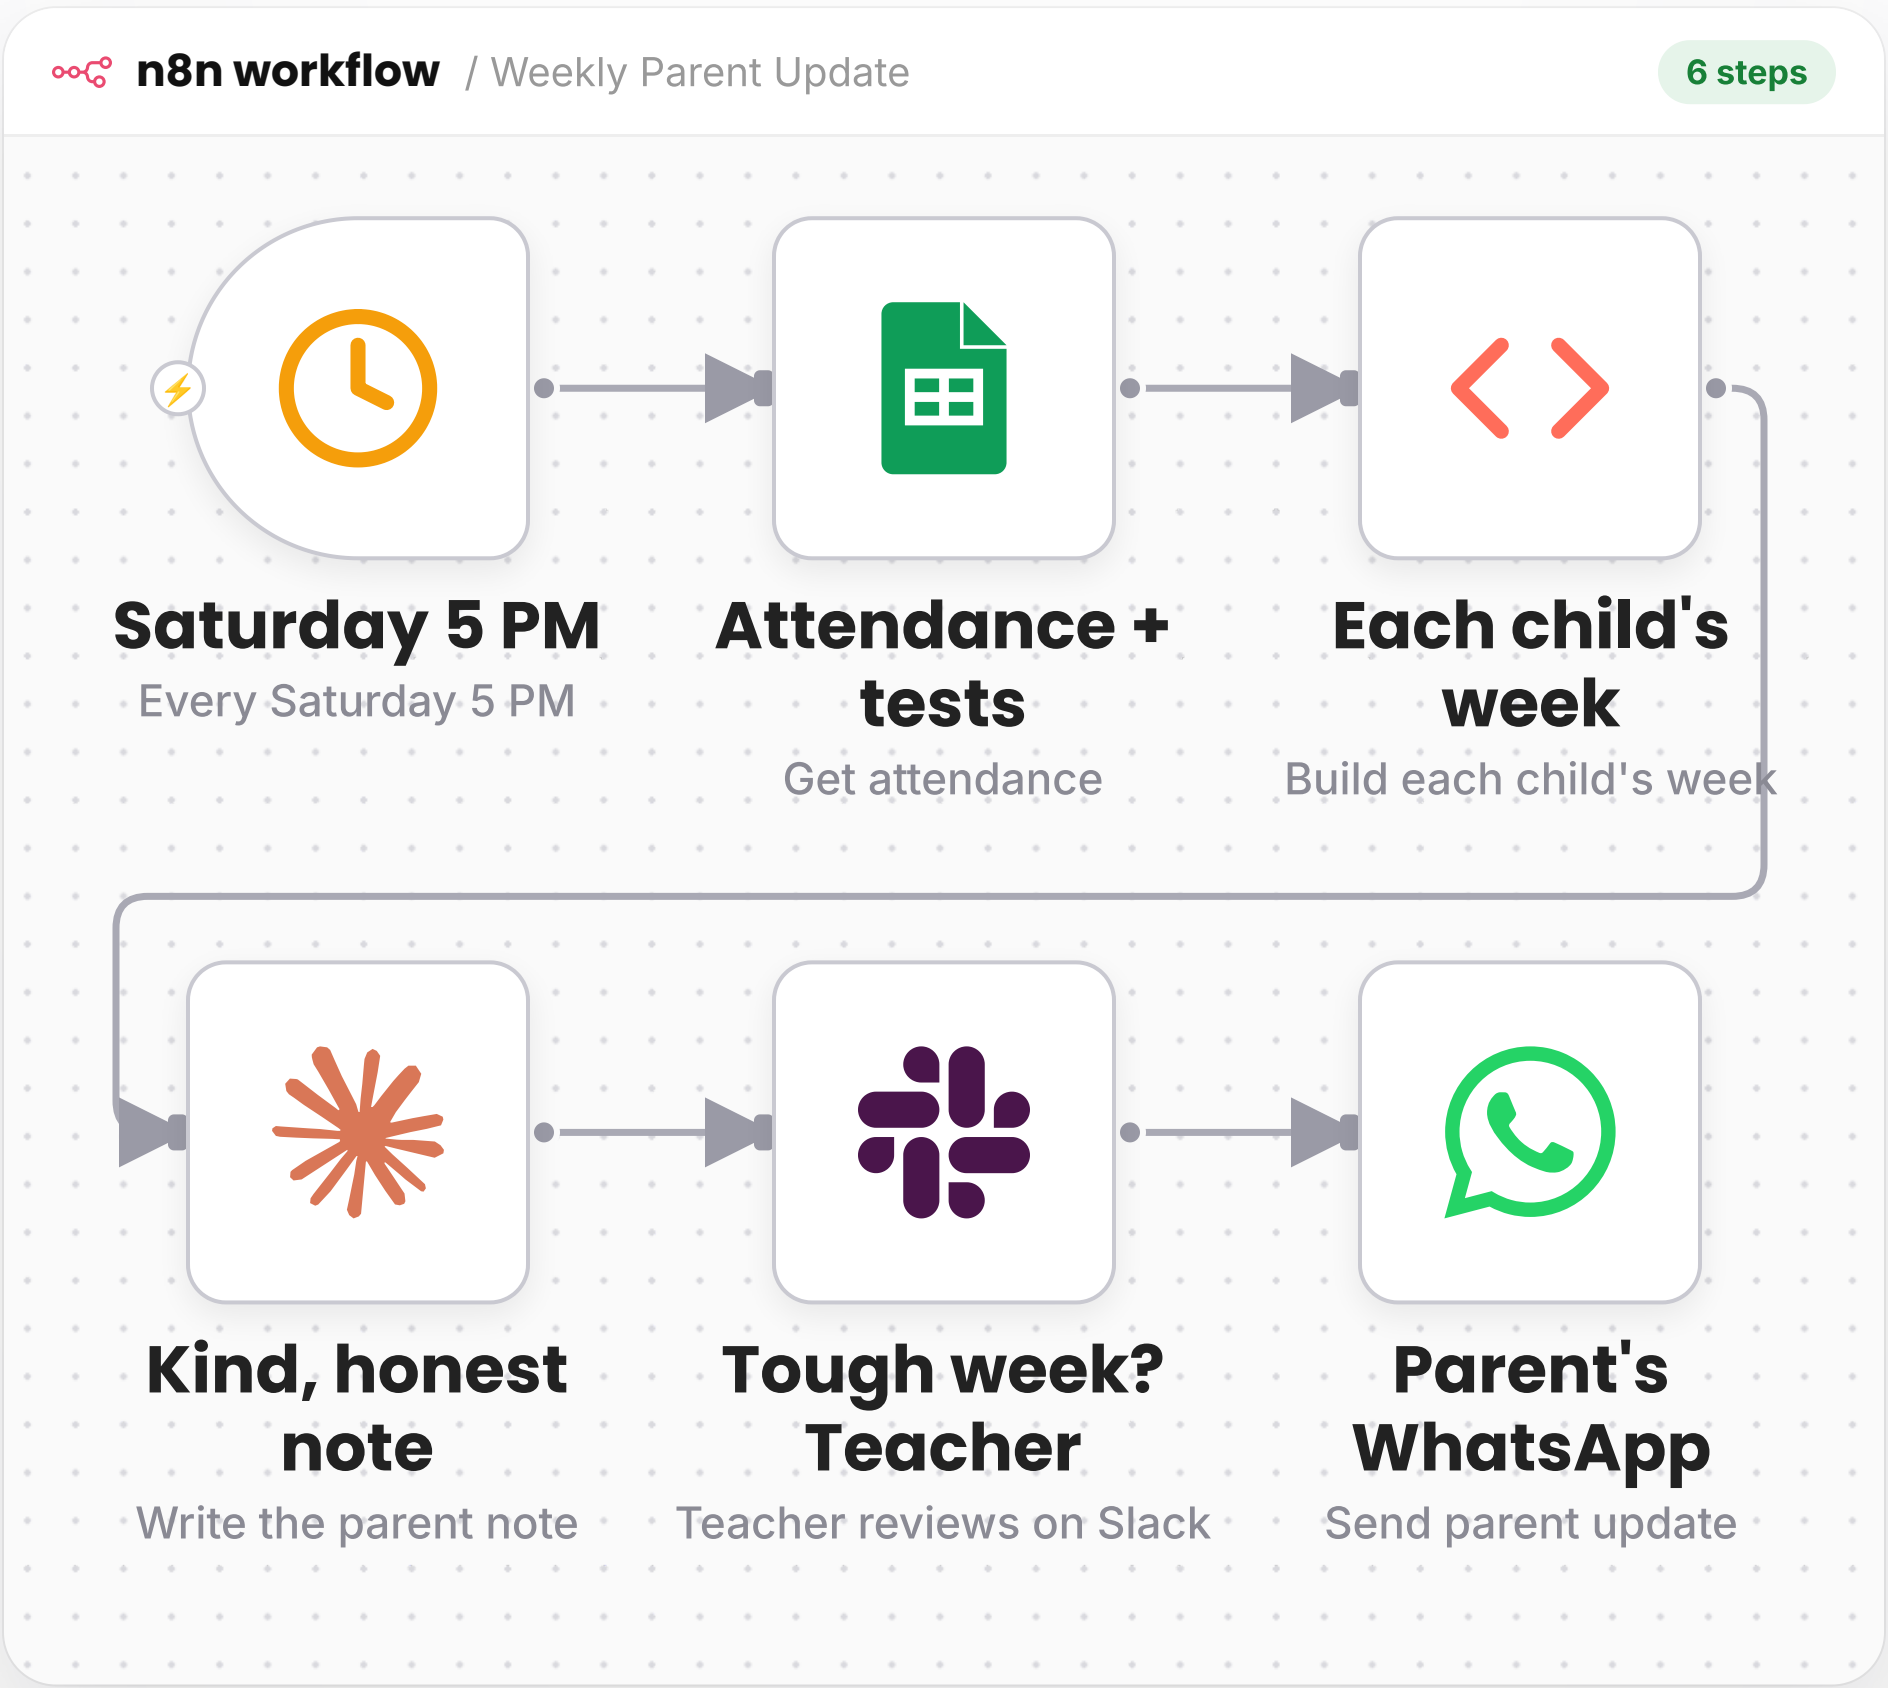

120 parents, 1 teacher

The Workflow

Weekly Parent Update

Every box below is a node in the free workflow.

Step 1

Saturday 5 PM, the week is pulled

Every Saturday at 5 PM n8n reads your Students, Attendance and Tests sheets for this week. The same sheets your teachers already fill.

Google Sheets

Attendance · this week

	Student	Mon	Wed	Fri
1	**Aarav K.**	**P**	**A**	**A**
2	Diya S.	P	P	P
3	Kabir M.	P	P	A
4	Ira P.	P	P	P

N8N NODES

Every Saturday 5 PM

Set week dates

Get students

Get attendance

Get test scores

Step 2

Each child's numbers, in code

A Code node works out each child's attendance, this week's test marks against the batch average, and fees due. It flags tough weeks: low attendance, a low score or overdue fees.

Output · JSON

```
{
  "child": "Aarav",
  "attendance": "4 of 6",
  "test": "11/25 (batch avg 17)",
  "fees_due": "₹6,000 by 25 Nov",
  "flag": "attendance below 75%"
}
```

maths by code, not AI

N8N NODES

- Build each child's week
- Not sent this week?
- Loop over parents

Step 3

Claude writes a kind, honest note

Claude turns the numbers into short lines in the parent's language, with one specific, encouraging line from the teacher. It never compares a child with another child by name.

Claude

Write Aarav's weekly note (Hindi)

Attendance	Is hafte 6 mein se 4 class
Test	Algebra: 11/25, batch avg 17
Fees	₹6,000, 25 Nov tak
Teacher	Linear equations pe 2 extra sums daily

N8N NODES · Write the parent note · Claude · Note format

Step 4

Tough weeks wait for the teacher

Flagged updates go to the teacher on Slack first. Approve sends it. Reject holds it, so the teacher can call the parent instead. Easy weeks go straight out.

Slack

class-10-updates

Parent Update APP 5:03 PM

Aarav K. (flag: attendance 4/6, test 11/25) To: Mrs. Kulkarni "Is hafte Aarav 6 mein se 4 class aaya..."

Approve | Reject

some weeks need a call

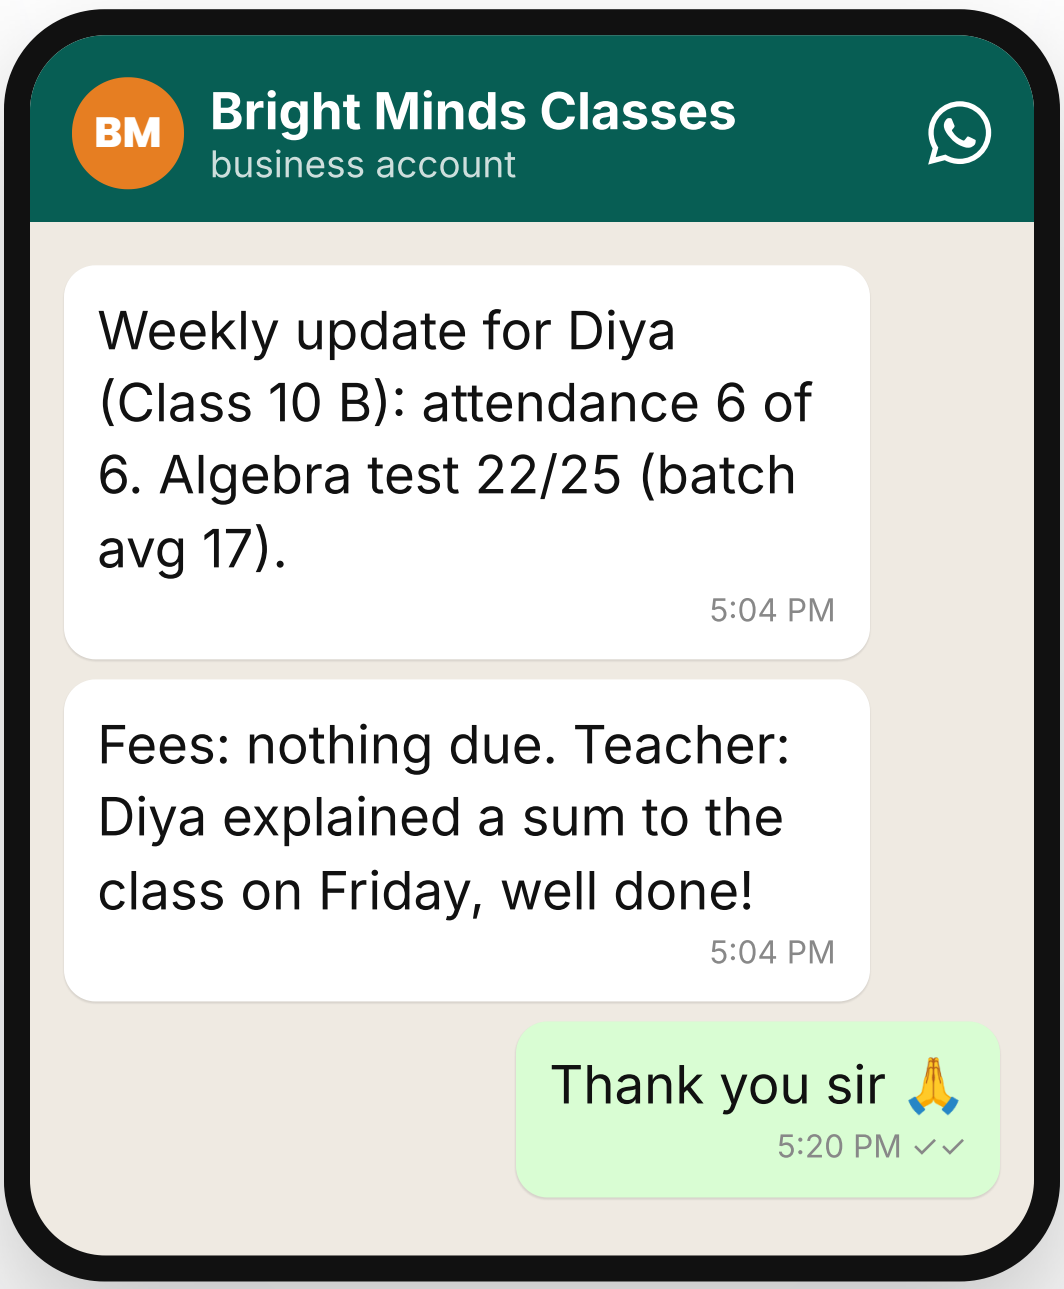

N8N NODES

Needs teacher review? → Teacher reviews on Slack → Approved?

Step 5

Sent on WhatsApp, marked, summarised

Each parent gets a WhatsApp template with their child's week. The sheet marks it sent so a re-run never repeats, and the owner gets a summary: sent, held, failed.

N8N NODES

- Send parent update
- Mark update sent
- Send failed alert
- Week summary
- Send summary to owner

What Changes

Before and after the workflow

BEFORE

- Parents hear about tests from the child
- Fee reminders are awkward calls
- 120 messages typed by hand, or none

AFTER

- Every parent updated by 5:30 PM
- Fees due shown every week, politely
- Tough weeks reach the teacher first

STAYS HUMAN

Every number comes from your sheets, and any flagged week waits for the teacher's Approve.
