AC complaint?

Tech on the way

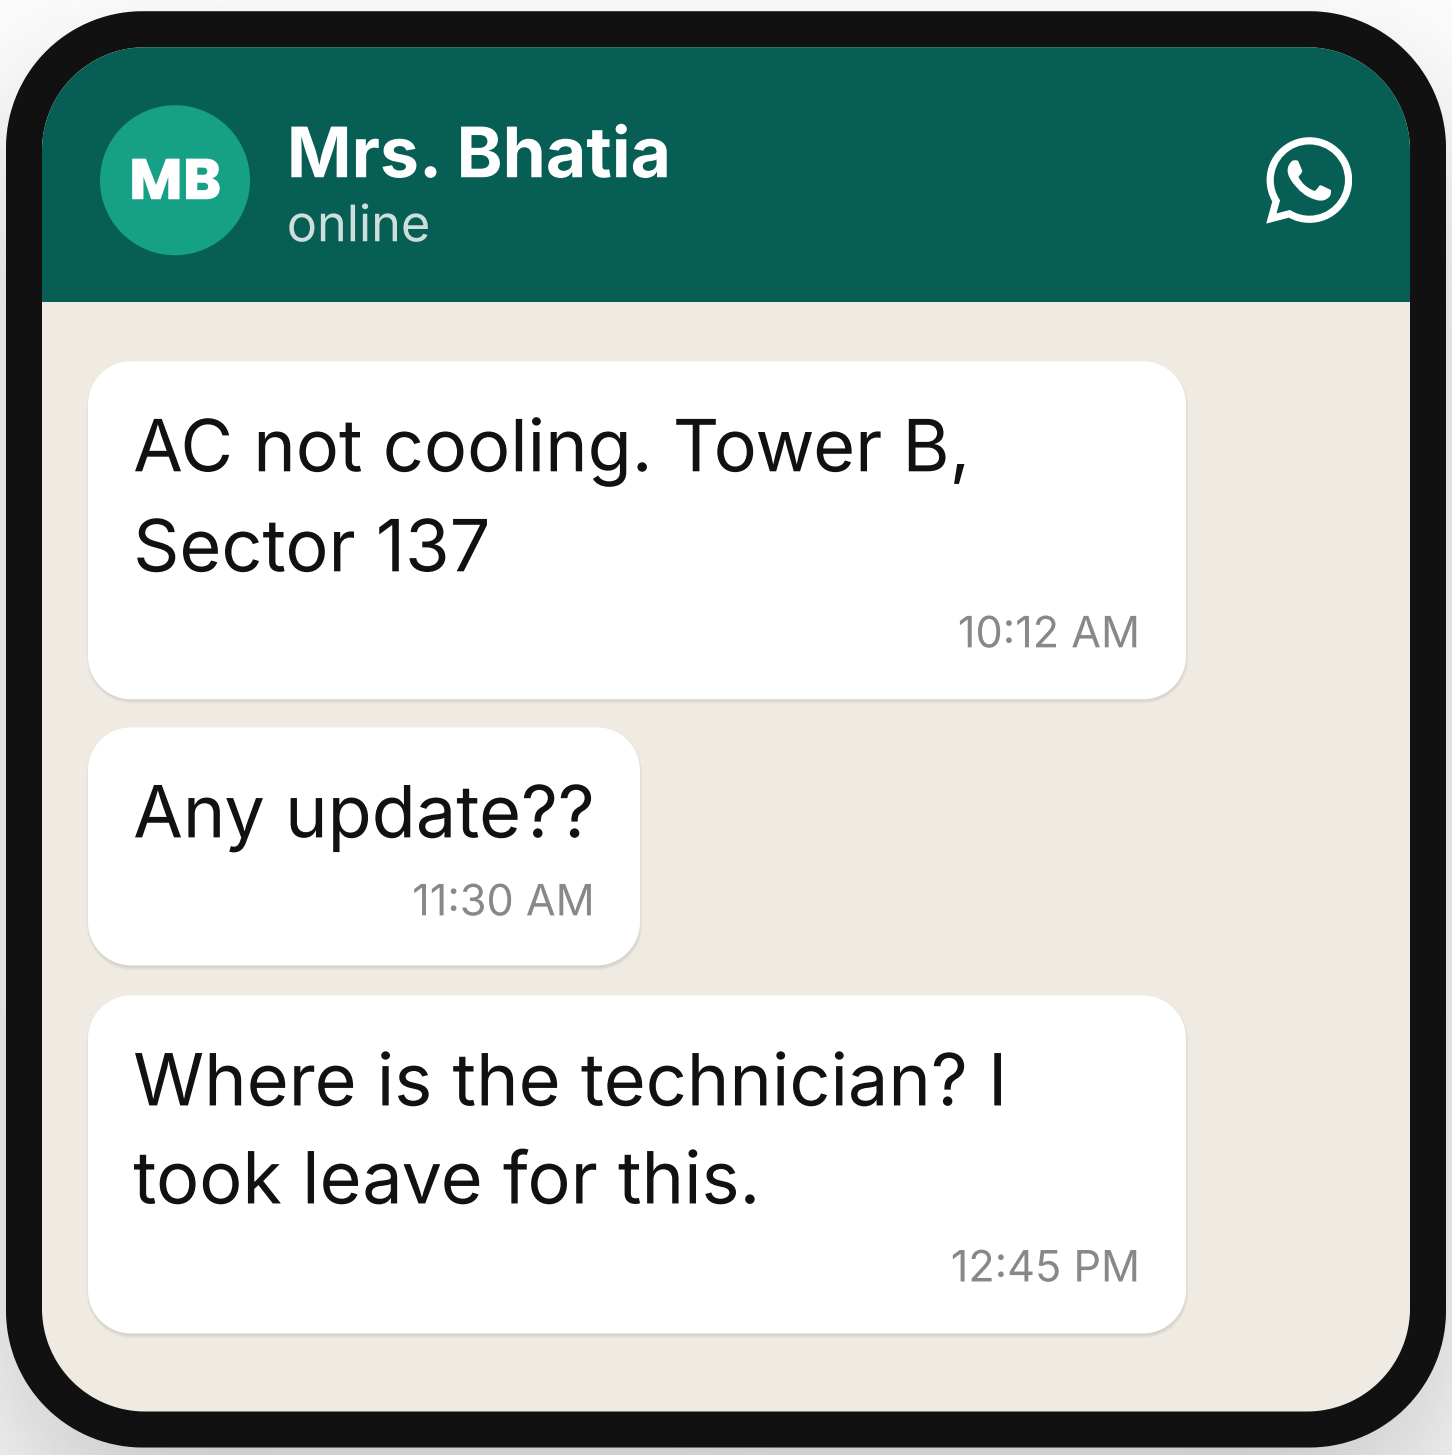

(n8n + Claude)

The Problem

Dispatch from a notebook

Monday, 10:15 AM. Complaints pour into CoolCare's WhatsApp. Ravi writes each one in a notebook and calls technicians one by one. He sends Sunil from Sector 62 while Imran was 4 km away.

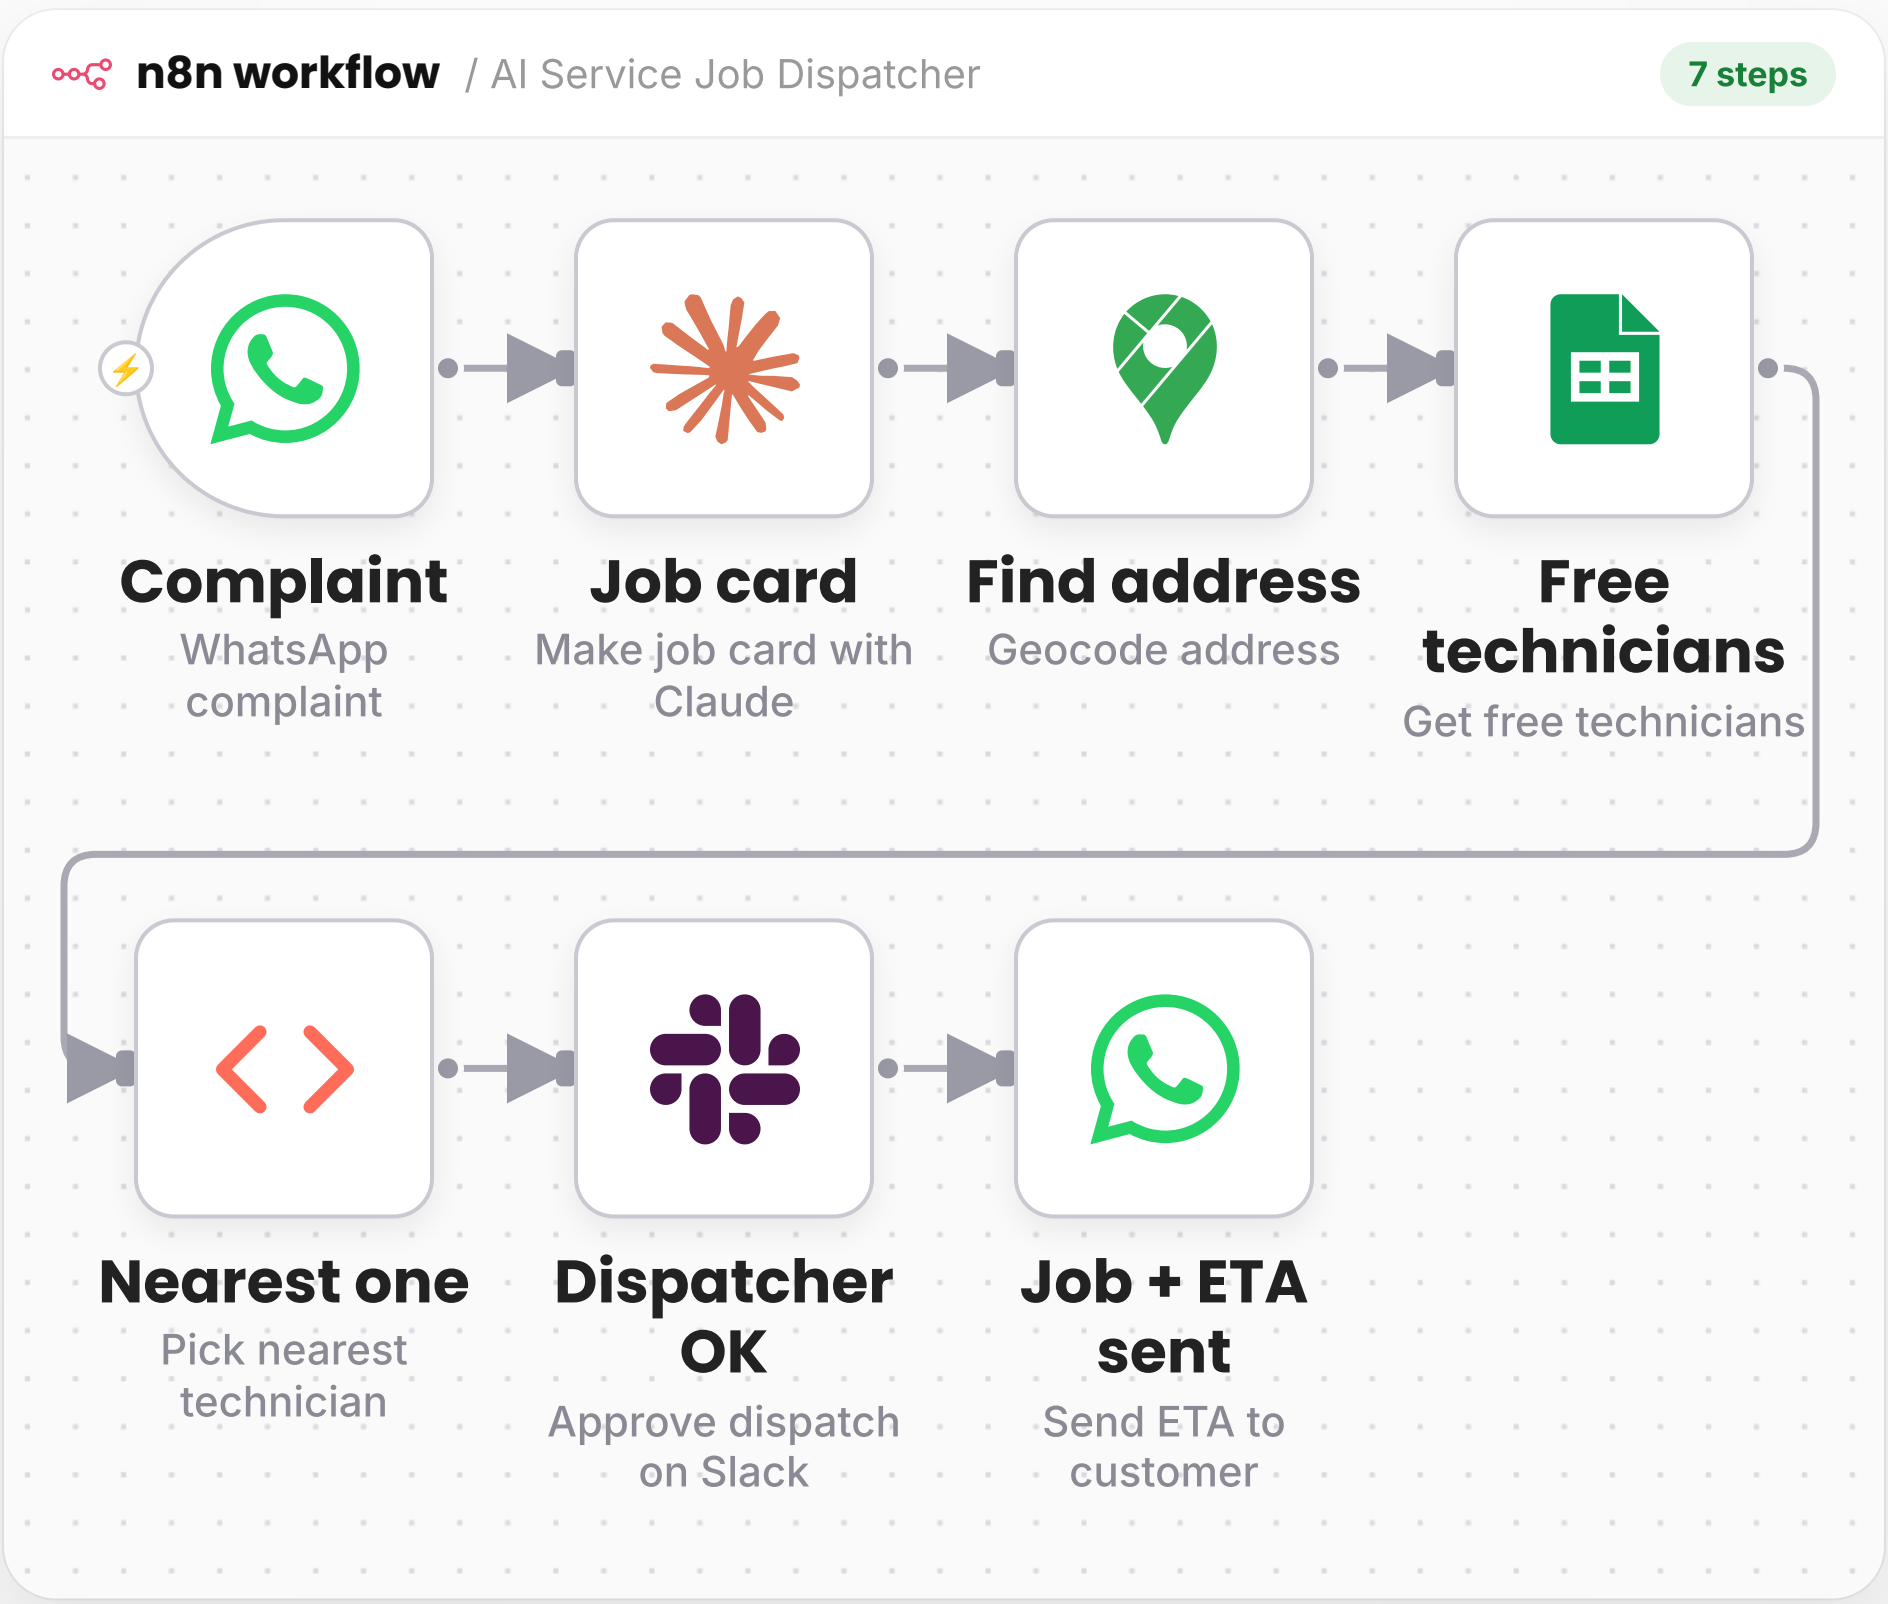

3 messages, no answer

The Workflow

AI Service Job Dispatcher

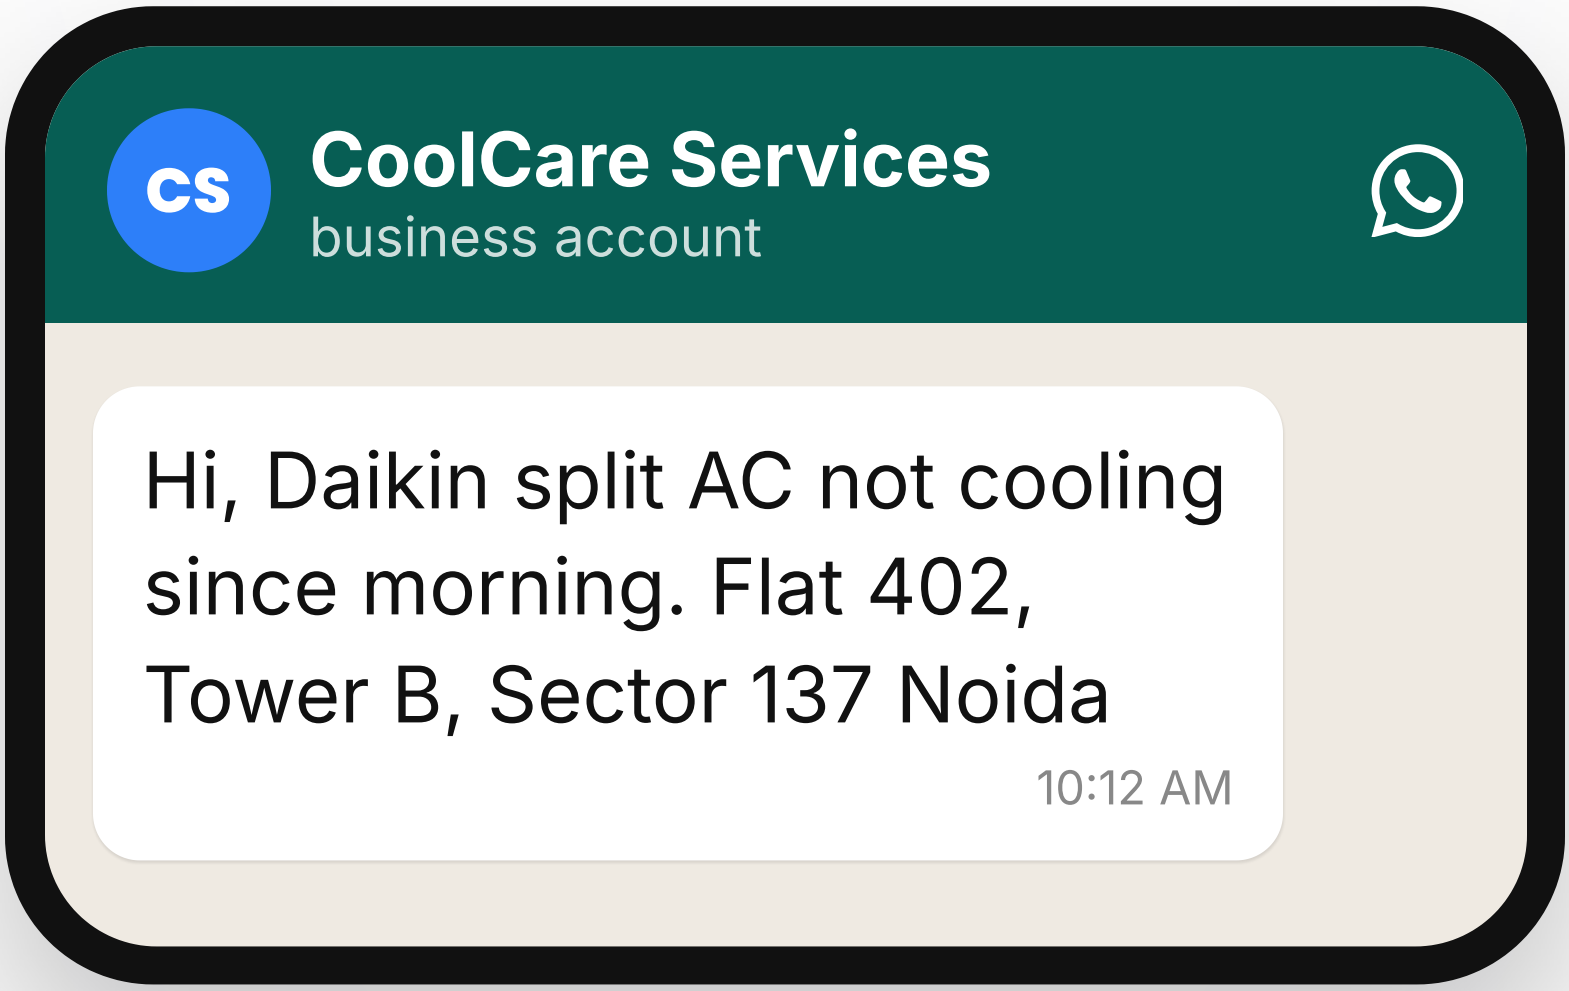

Every box below is a node in the free workflow.

Step 1

Complaint arrives on WhatsApp

Customers message your business number the way they always do. n8n catches each text, cleans the number and name, and never handles the same message twice.

N8N NODES

WhatsApp complaint

Clean up message

Already processed?

Step 2

Claude writes the job card

Claude turns the message into a job card: appliance, brand, issue, address, urgency. Missing address? It asks the customer. A status question goes to the dispatcher instead.

Claude

Make a job card

Type	new job
Appliance	AC, split
Brand	Daikin
Issue	not cooling
Address	402, Tower B, Sector 137
Urgency	normal

no more notebook

N8N NODES

Make job card with Claude

Claude

What do they need?

Ask for details

Alert dispatcher on Slack

Step 3

Find the nearest free technician

Google Maps turns the address into a location. n8n reads your technicians sheet, keeps the free ones with the right skill and picks the closest, with a rough ETA. The job card is logged.

Google Sheets

Technicians

	Name	Skill	Distance	Status
1	**Imran**	**AC, RO**	**4.2 km**	**Free**
2	Sunil	AC	11.8 km	Free
3	Deepak	RO	2.1 km	Free
4	Arif	AC	3.0 km	Busy

N8N NODES

Geocode address

Get free technicians

Pick nearest technician

Log job card

Step 4

Dispatcher approves, everyone is told

The job lands in Slack with the technician and ETA. Ravi taps Approve: the technician gets the job card, the customer gets the job ID and ETA, and the technician is marked busy.

Slack

dispatch

Job Dispatcher APP 10:13 AM

JOB-1012 · Daikin AC not cooling · Sector 137

Nearest free: Imran, 4.2 km, about 25 min Approve to send the job card and ETA.

Approve **Reassign**

one tap, two messages

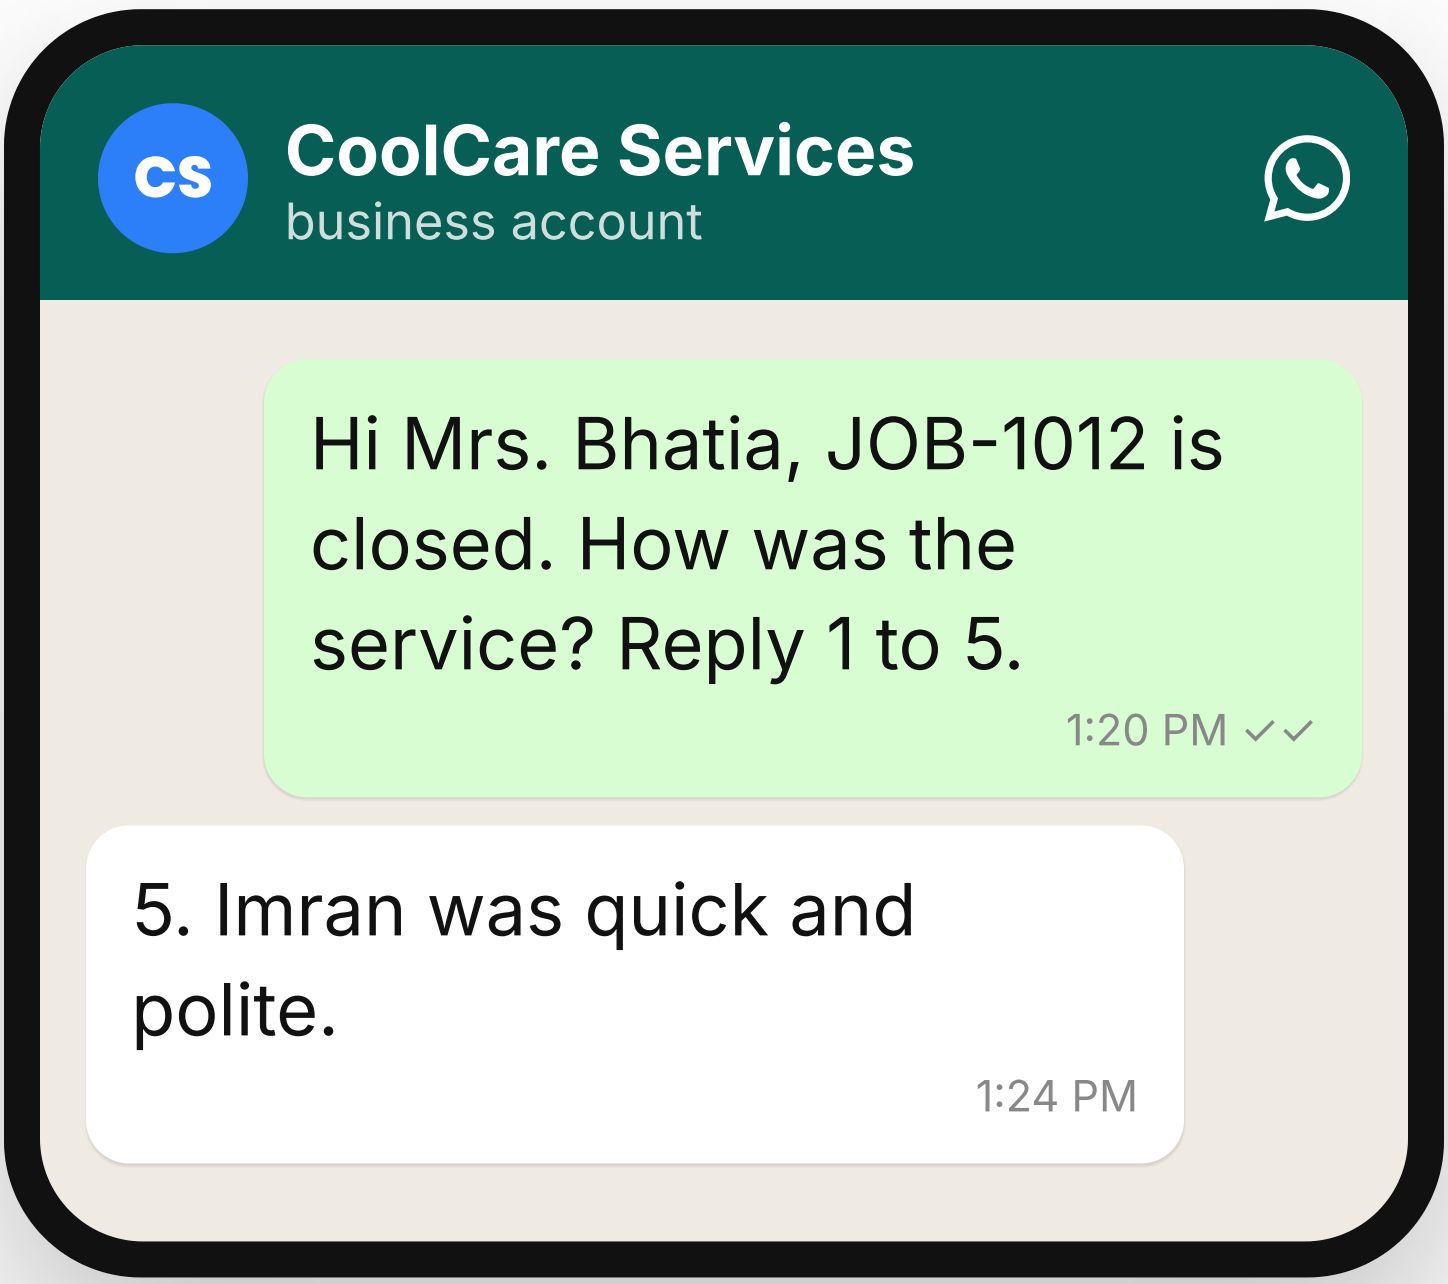

N8N NODES

- Approve dispatch on Slack
- Dispatcher approved?
- Mark for manual dispatch
- Send job to technician
- Send ETA to customer
- Mark technician busy

Step 5

Job done? Ask for feedback

When the job is marked Done in the sheet, the technician is free again and the customer gets a short feedback ask on WhatsApp. It is sent once per job, never twice.

N8N NODES

- Job marked done
- Done and not asked yet?
- Mark technician free
- Send feedback ask
- Mark feedback asked

What Changes

Before and after the workflow

BEFORE

- Complaints in a notebook
- Technicians called one by one
- Customers chasing for updates

AFTER

- Every complaint becomes a job card
- Nearest free technician picked
- Job ID and ETA sent after one tap

STAYS HUMAN

No technician is sent and no ETA goes out until the dispatcher taps Approve.
