Ask the SOP, not the boss

(n8n + Claude)

The Problem

Three answers, one SOP

Tuesday, 8:10 PM. A new receptionist at branch 3 asks the staff group how to refund a patient who cancelled. Three seniors reply three different ways. The SOP on Drive says something else.

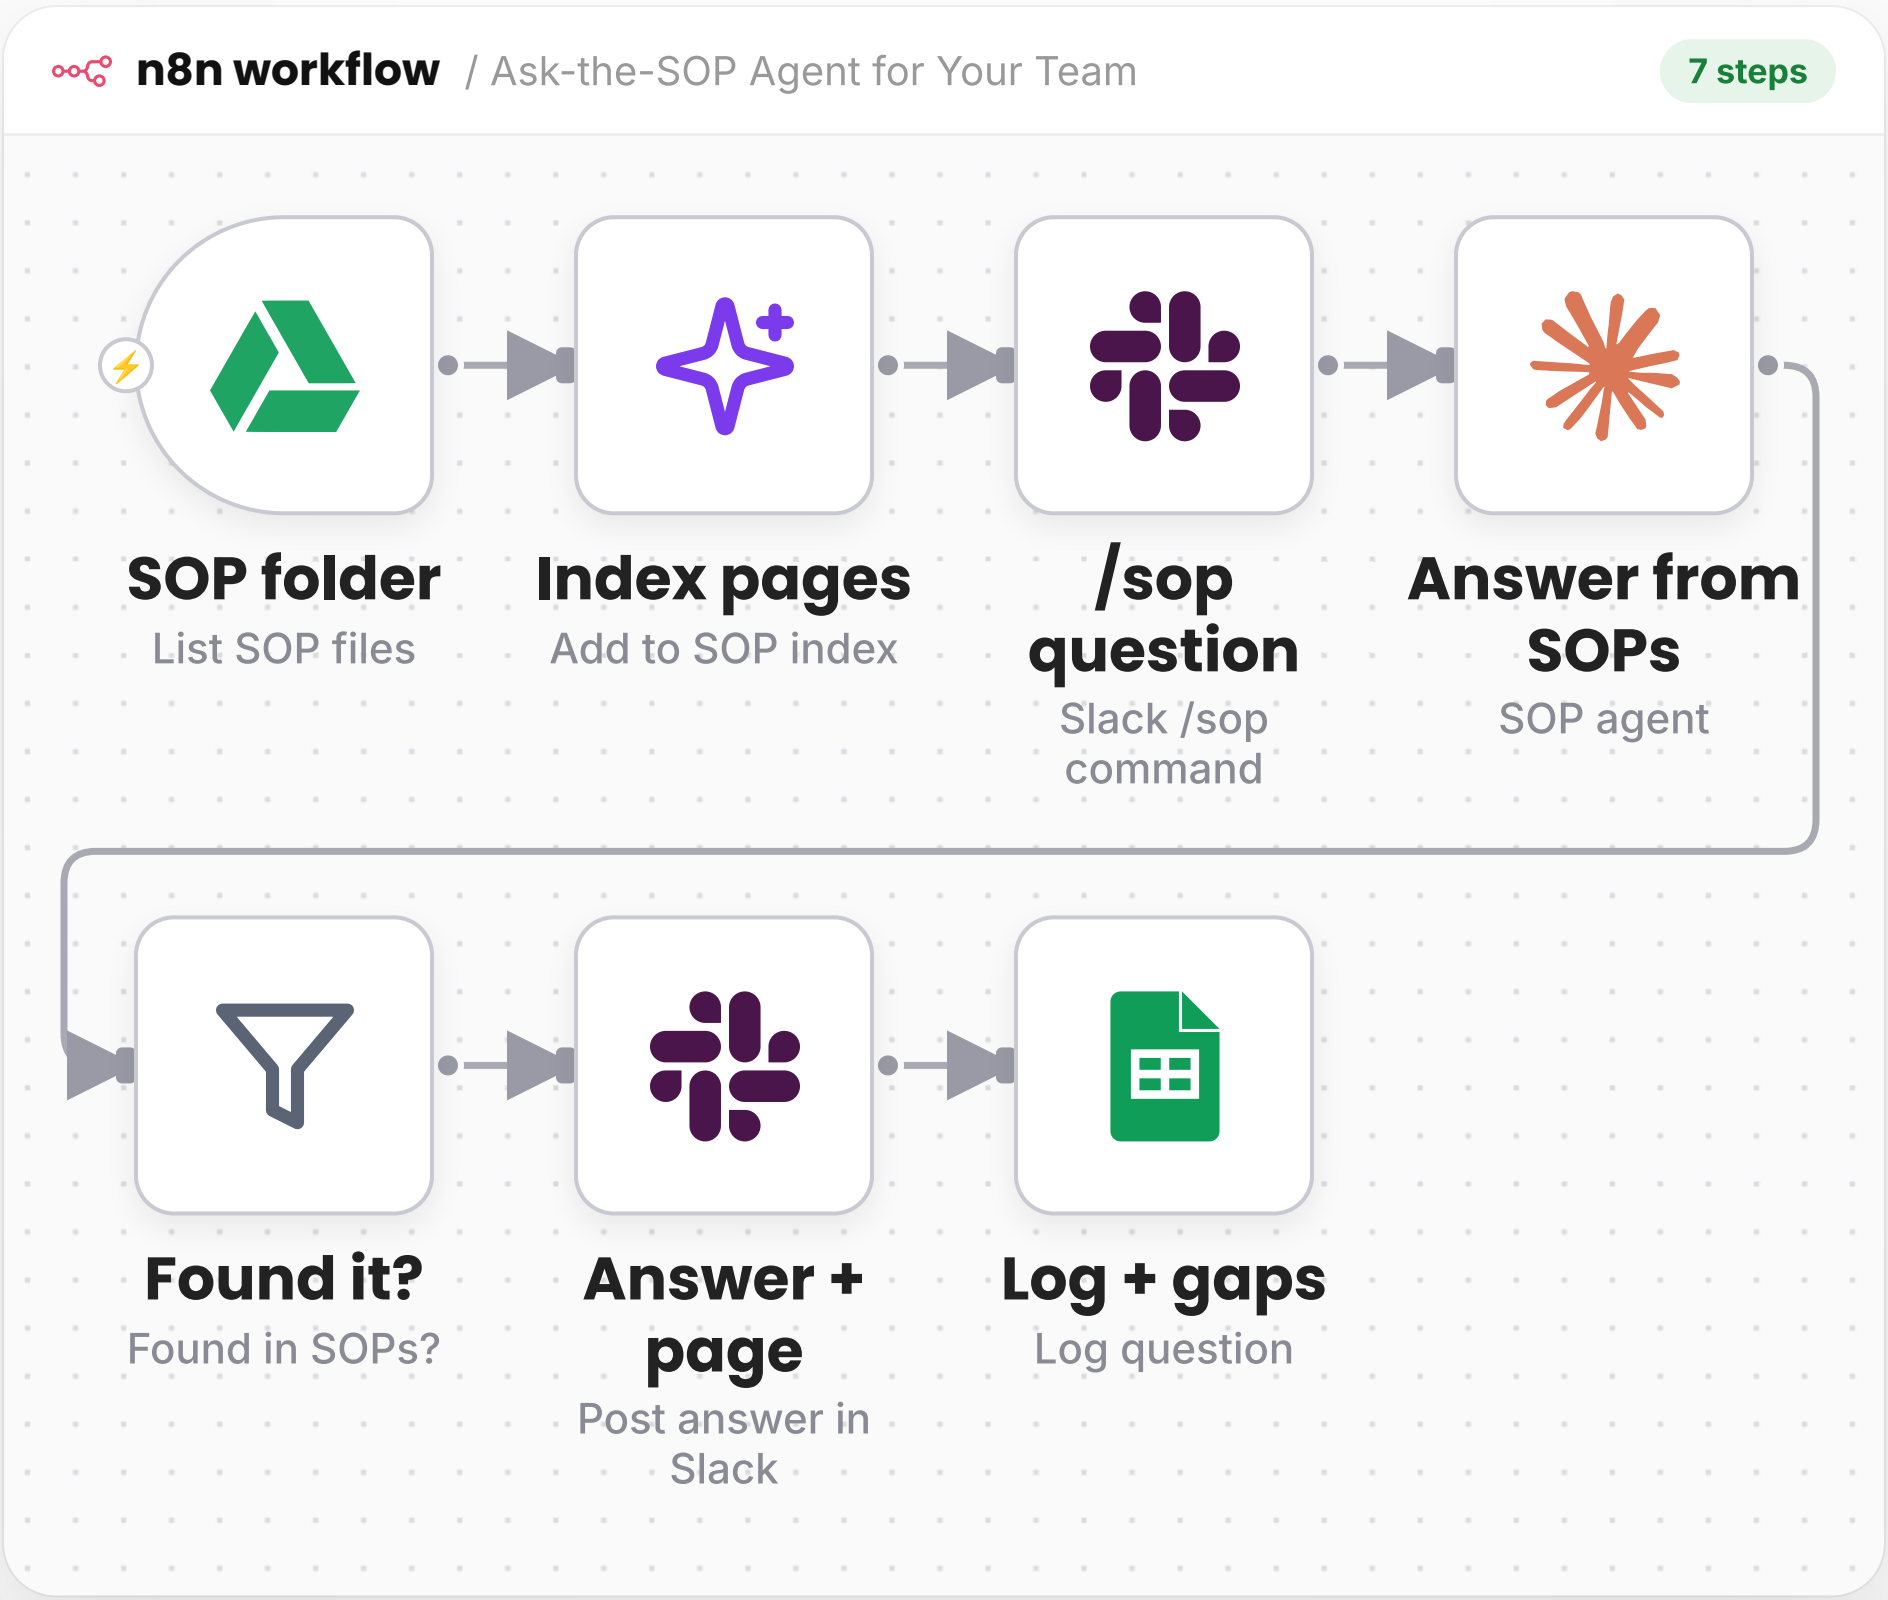

the SOP was right there

The Workflow

Ask-the-SOP Agent for Your Team

Every box below is a node in the free workflow.

Step 1

Your SOPs, indexed every night

Put your SOP PDFs and Google Docs in one Drive folder. Every night at 2 AM n8n downloads them, splits them page by page and builds a fresh search index, so edits show up the next morning.

- [x] Refund SOP v3.pdf (6 pages)
- [x] Opening and closing checklist.pdf
- [x] Sterilisation protocol.gdoc
- [x] New patient intake.gdoc
- [x] Indexed at 2:04 AM

edit the doc, not the bot

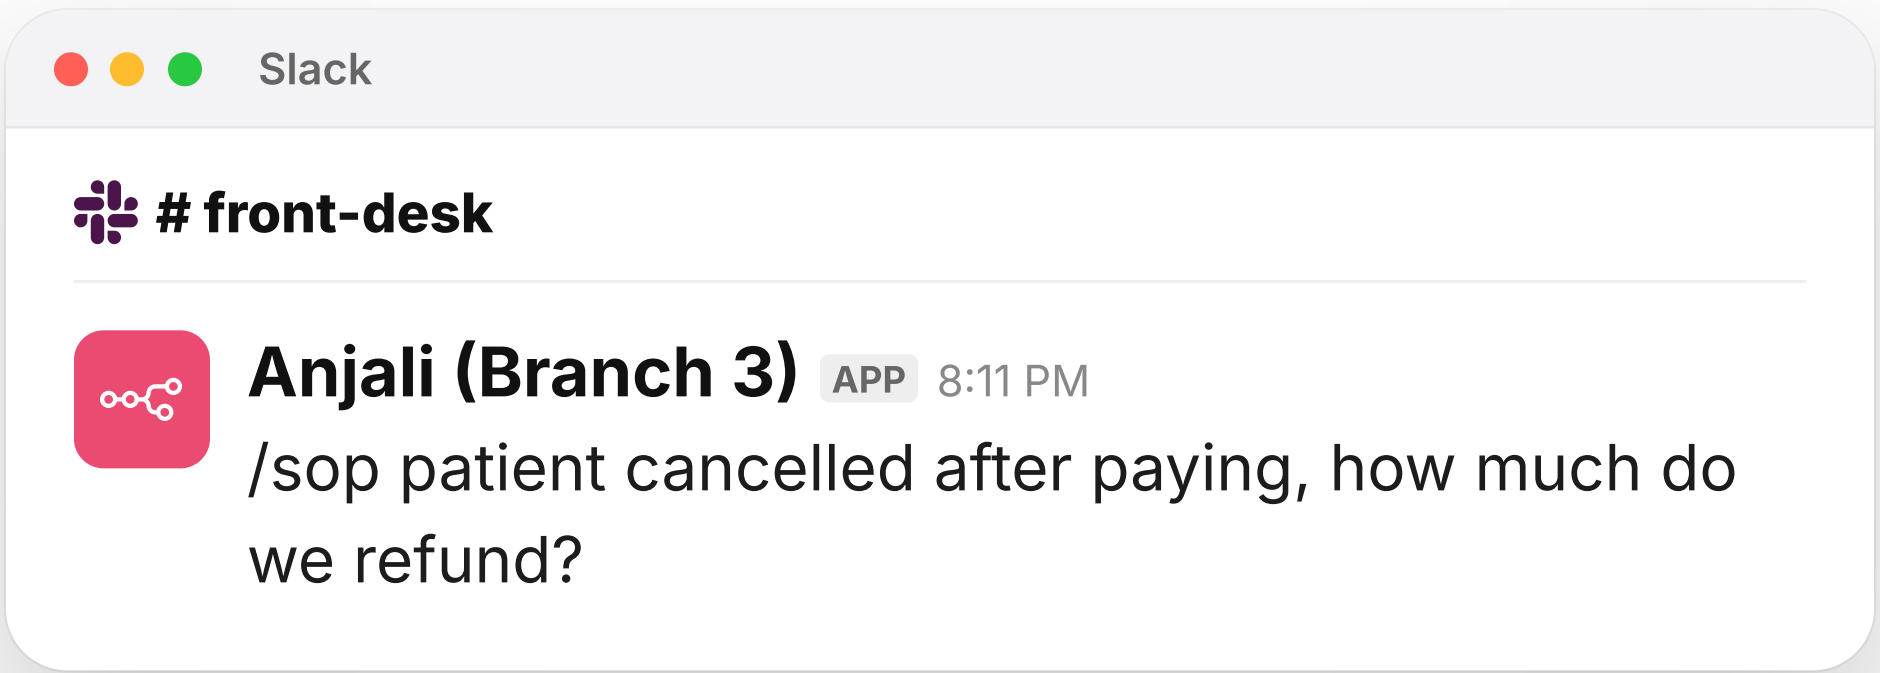

N8N NODES

Rebuild index at 2 AM · List SOP files · Download SOP files · Add to SOP index · Embeddings (index) · SOP page loader · Split into chunks

Step 2

Staff ask with /sop in Slack

Anyone types /sop and their question in Slack. n8n replies "looking it up" within a second, checks the request really came from your Slack, and never answers the same request twice.

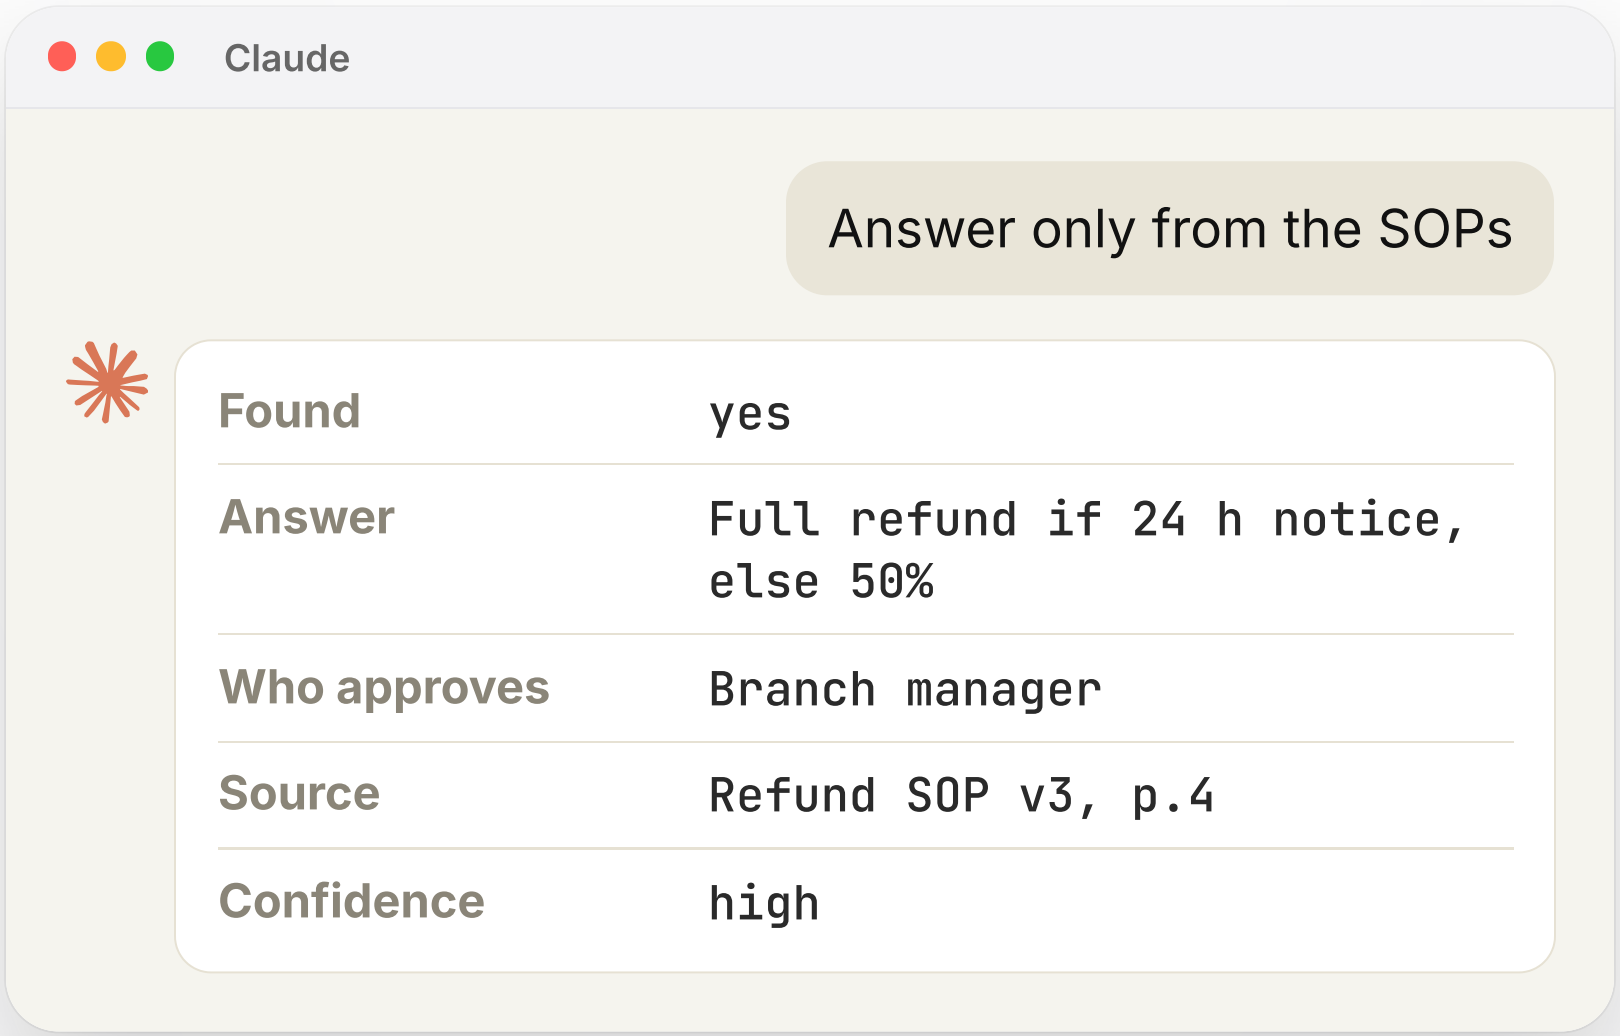

N8N NODES

- Slack /sop command
- Acknowledge in Slack
- Clean up question
- Real question from Slack?
- Already answered?

Step 3

Claude answers from the SOPs only

The agent searches your SOP index and answers only from what it finds, in short steps. It must name the document and page. If the SOPs do not cover it, it says so instead of guessing.

no source, no answer

N8N NODES

- SOP agent
- Claude
- Answer fields
- Search SOPs
- Embeddings (search)

Step 4

The answer, with the page number

Found answers are posted in the same Slack channel with the document and page, so anyone can check. If Slack fails to post, the ops manager gets an alert.

Slack

front-desk

SOP Bot APP 8:12 PM

@Anjali Full refund if the patient cancels 24 hours before. Less than 24 hours: refund 50%. The branch manager approves it in the billing app.
Source: Refund SOP v3, page 4

N8N NODES

Found in SOPs?

Post answer in Slack

Alert: Slack post failed

Step 5

Not in the SOP? A manager answers

If the SOPs do not cover it, the question goes to the SOP owner, who types the answer in Slack. It is posted back to the staff member and logged as a gap to add to the SOP.

Google Sheets

SOP Questions

	Question	Found	Source	Status
1	Refund after payment?	yes	Refund SOP p.4	Answered
2	**Lost X-ray film?**	**no**		**Gap: add to SOP**
3	Night closing steps?	yes	Closing p.1	Answered

N8N NODES

Ask the SOP owner

Post manager's answer

Log question

What Changes

Before and after the workflow

BEFORE

- Same question, three answers
- Seniors interrupted all day
- SOPs nobody opens

AFTER

- One answer, from the SOP
- Page number on every answer
- Gaps logged for the next SOP update

STAYS HUMAN

The agent answers only from your SOP documents and always cites the page. No source, no answer: a manager replies.
