The Workflow

SaaS Subscription Spend Audit

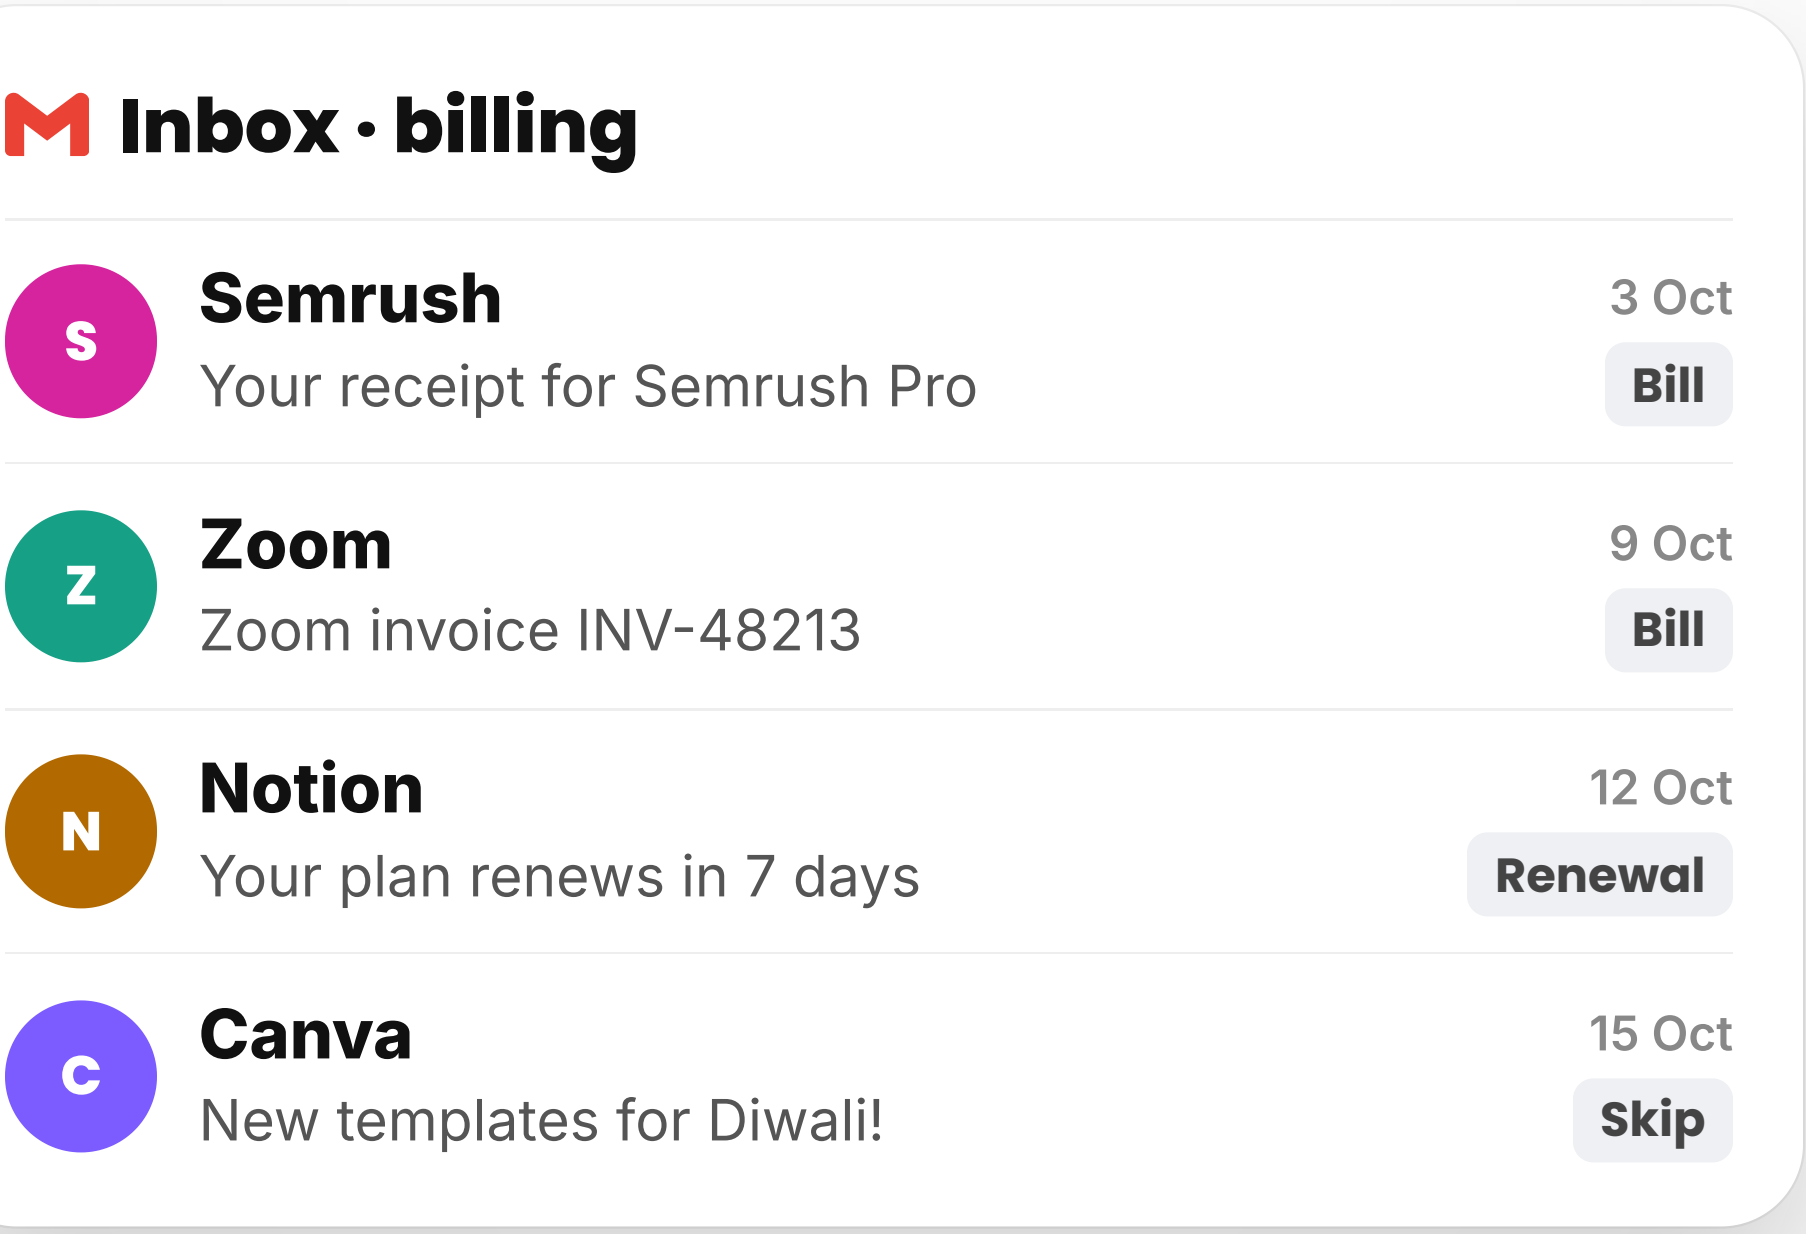

Every box below is a node in the free workflow.

Step 1

Catch every billing email

n8n watches Gmail for receipts, invoices and renewal notices from your software tools. Each email is read once, and marketing emails never reach the AI.

Step 2

Claude reads the bill

Claude pulls out the tool, plan, amount, currency, monthly or yearly, next renewal date, seats and who it is billed to. Promotions and one-off purchases are dropped.

On the 1st of every month you get one Slack message: total per month, renewals in the next 30 days, tools nobody has confirmed lately and possible duplicates.

one message, once a month

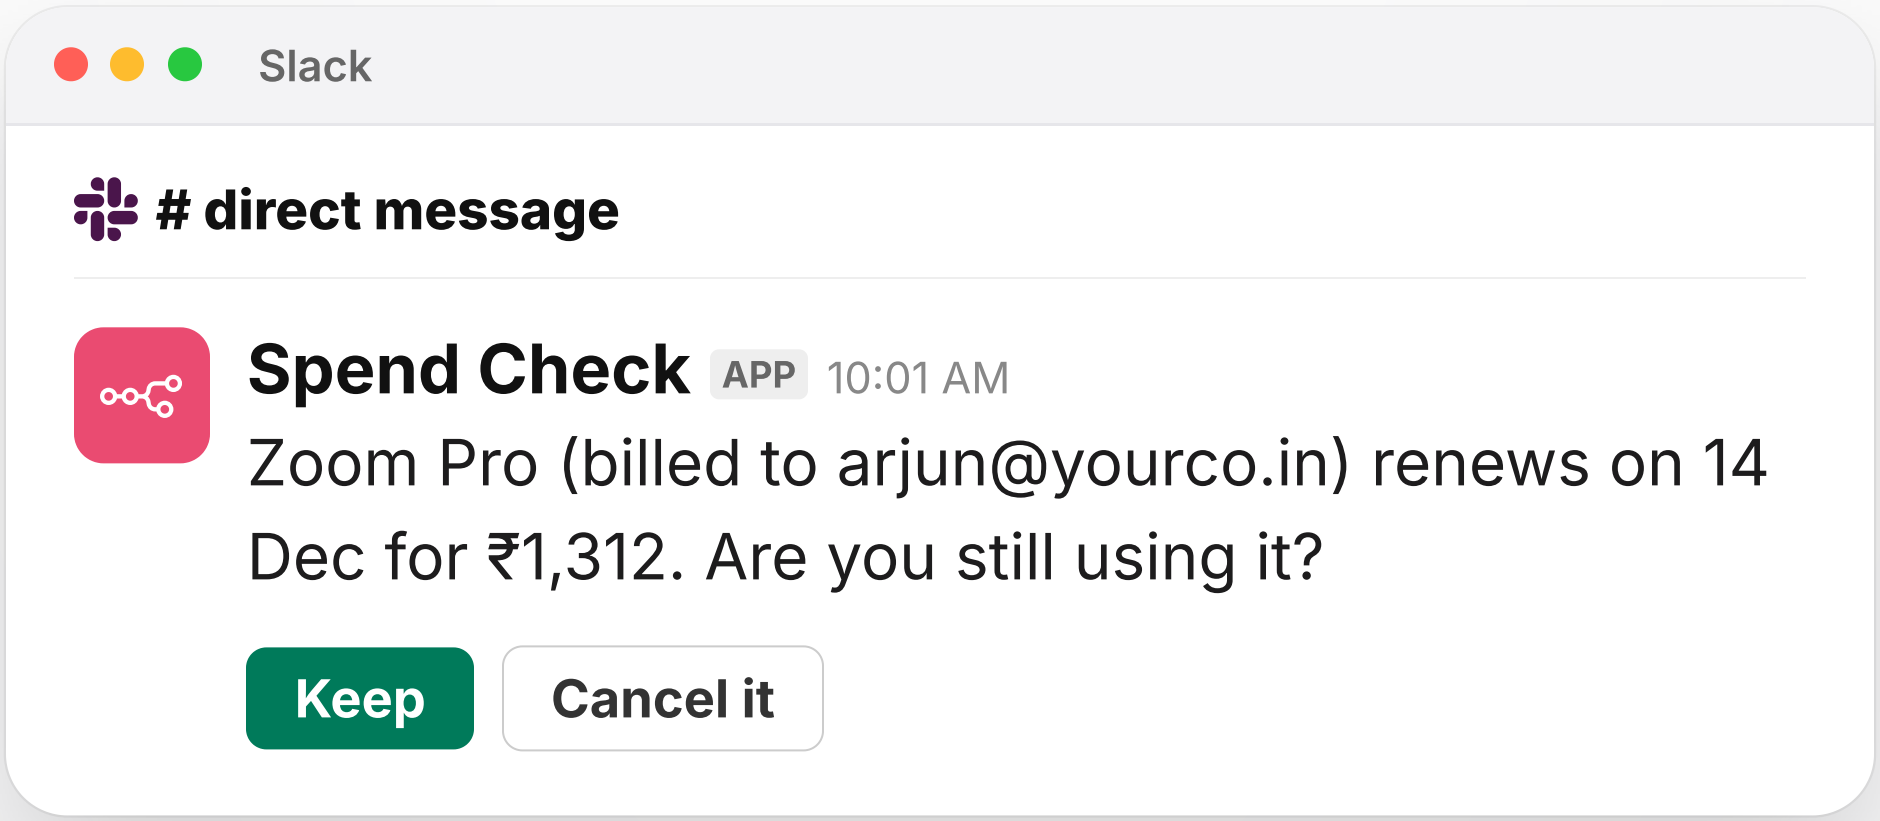

N8N NODES

On the 1st at 10 AM → Read subscriptions → Build spend summary → Post spend report → Alert: report failed

Step 5

Before a tool renews, its owner gets a Slack message: still using it? Keep updates the last confirmed date. Cancel flags it for finance to cancel. Nothing is cancelled automatically.

N8N NODES

- Ask owner: still using?
- Keep it?
